DISCUSSION: An emergency exists when conditions are beyond the control of the services, personnel, equipment, and facilities of this City. The declaration is an acknowledgement of the need for the combined forces of other political subdivisions to combat.

In 2020 a severe acute respiratory illness caused by a novel (new) coronavirus, known as COVID-19, spread globally and rapidly, resulting in severe illness and death around the world. The World Health Organization classified COVID-19 as a global pandemic.

On March 4, 2020, California Governor Gavin Newsom declared a State of Emergency in response to the increased spread of COVID-19. The Governor's declaration also suspended the requirement under Government Code Section 8630 for local government authorities to renew a state of local emergency every 60 days.

Additionally, on March 4, 2020, the Los Angeles County Board of Supervisors and the Department of Public Health all declared a local and public health emergency in

response to increased spread of COVID-19 across the country and in Los Angeles County. The President of the United States declared a federal emergency as a result of the spread of the COVID-19.

On March 14, 2020, the Director of Emergency Services of the City proclaimed the existence of a local emergency.

On March 16, 2020, the City Council adopted Resolution No. 20-14 ratifying the proclamation of the existence of a local emergency by the Director of Emergency Services.

On February 28, 2023, California Governor Gavin Newsom terminated the State of Emergency renewing the need for the City Council to review the need for continuing the local emergency at least every sixty (60) days, pursuant to Government Code Section 8630.

On April 10, 2023, the City Council adopted Resolution No. 23-15 extending the declaration of the existence of a local emergency.

On May 22, 2023, the City Council adopted Resolution No. 23-21 extending the declaration of the existence of a local emergency.

On July 10, 2023, the City Council adopted Resolution No. 23-36 extending the declaration of the existence of a local emergency.

The COVID-19 emergency continues to evolve and State and Federal agencies continue to recommend social distancing to prevent the spread of COVID-19. The local state of emergency allows the City to continue emergency response programs, such as the Temporary Restaurant Recovery Program, that support social distancing and public safety during the ongoing emergency.

Government Code Section 8630 requires that the City Council review the need for continuing a local emergency at least once every 60 days until the City Council terminates the local emergency.

As such, City staff recommends adopting Resolution No. 23-39 extending the declaration of the existence of a local emergency. If adopted, the City Council will review, and as needed renew, this action at least every 60 days.
