To: Mayor Pierson and the Honorable Members of the City Council

Prepared by: Adam Chase, Assistant Public Works Director/Assist City Engineer

Reviewed by: Robert DuBoux, Public Works Director/City Engineer

Approved by: Reva Feldman, City Manager

Date prepared: October 16, 2020 Meeting date: November 9, 2020

Subject: Cooperative Agreement with the State of California for the Pacific Coast Highway Median Raised Median Improvements Project

RECOMMENDED ACTION: Authorize the Mayor to execute the third and final phase of the Cooperative Agreements with the State of California (Caltrans) for the construction of the PCH Raised Median and Channelization Improvements Project.

FISCAL IMPACT: Funding for this project was included in the Adopted Budget for Fiscal Year 2020-2021 in Account No. 310-9059-5100 (PCH Median Improvements).

WORK PLAN: This item was included as item 8h in the Adopted Work Plan for Fiscal Year 2020-2021.

DISCUSSION: The PCH Raised Median and Channelization Improvements Project is a transportation project that was identified in the 2015 PCH Safety Study. The overall objective of the project is to improve the safety and operations of the highway for all modes of travel by upgrading the raised medians and modifying the cross section of the highway. The project limits are along PCH/State Route 1 from the intersection of Webb Way to the intersection of Puerco Canyon Road; a distance of approximately two miles.

Since this project is a locally sponsored project on the state highway system and the construction cost is in excess of \$3 million, Caltrans is required to review and approve the project in phases. The project is now in the third and final phase and requires a new cooperative agreement to construct.

On March 14, 2016, Council authorized the City Manager to execute Measure R Funding Agreements with the Los Angeles County Metropolitan Transportation Authority (LACMTA) for transportation related projects. On April 13, 2017, the City Manager executed a Measure R Funding Agreement with LACMTA allocating \$6,950,000 for the design, permitting, and construction of the PCH Raised Median and Channelization Improvements Project.

On July 10, 2017, Council authorized the City Manager to execute the first of three Cooperative Agreements with Caltrans which provided quality assurance and oversight services for the development of the Project Initiation Documents (PID) phase.

On February 26, 2018, Council authorized the City Manager to execute the second of three Cooperative Agreements with Caltrans which provided the development of the Project Approval and Environmental Document (PA&ED), the Plans, Specifications, and Estimate (PS&E), and the Right of Way work.

This Cooperative Agreement is for the third phase of the project and includes Caltrans oversight during Construction. This agreement ensures that the City is clear with the responsibilities for completing the construction activities within Caltrans right of way.

Staff recommends authorizing the Mayor to execute the final third Cooperative Agreement with Caltrans for the PCH Raised Median and Channelization Improvements Project.
