Profile Information: Please provide detailed information which demonstrates experience or background applicable to the Commission / Committee (including education and experience on study groups, task forces and committees, community / civic and business activities).

I first met Joe Edmiston, the Executive Director of SMMC, in the early 1990s.

He was moving to Pacific Palisades and I was on the board  
of The Palisades Community Council. He asked us if we would help him  
acquire the property, which later became Temescal Canyon  
Park, from the Presbyterian Church.

It was the beginning of a strong relationship. I worked with him  
on a quite a few projects and learned his ways of acquiring  
land and doing business. It was a very pleasant and  
rewarding experience.

Qualifications: Please provide detailed information which demonstrates professional skills and talents applicable to this Commission / Committee.

In 1997 I moved back to Malibu and started working in Malibu politics

which included SMMC and The California Coastal Commission.

In about 2004 Dennis Seider was appointed to represent Malibu at the

SMMC meetings. I was already a frequent attendee at these

meetings. When Dennis Seider was unable to attend, he

asked me to attend on his behalf and report to him and the

Council. I did that for about 10 years.

I am aware of the comission system because in 2000 I was

appointed to the Telecommunications Commission by Jeff Jennings.

I know all the rules and procedures.

Role and Issues of Commission / Committee: Please provide detailed information which demonstrates your opinion as to the role of a City Commissioner / Committee Member and issues you feel need to be addressed by Malibu which relate to this Commission / Committee.

My primary job in this role is to provide information and insight as to how

the SMMC and the MRCA are affecting our City government

and our quality of life in Malibu. I will submit a report to the City Council

after each meeting and appear before the City Council

periodically. As we all know, SMMC and MRCA are affecting

our lives more and more each and every day.

I have done this job and I look forward to doing it again.
