

Council Agenda Report

To: Mayor Pierson and the Honorable Members of the City Council

Prepared by: Mary Linden, Executive Assistant

Approved by: Reva Feldman, City Manager

Date prepared: April 14, 2021 Meeting date: April 26, 2021

Subject: SB 55 and SB 765 – SUPPORT and Request for State Audit of Metropolitan Water District of Southern California (Mayor Pro Tem Grisanti) (Continued from April 12, 2021)

RECOMMENDED ACTION: At the request of Mayor Pro Tem Grisanti, authorize the Mayor to: 1) Submit letters of support for Senate Bills (SB) 55 regarding development in very high fire hazard severity zones and SB 765 related to setback requirements for accessory dwelling units; and 2) Send a letter to the California State Assembly Joint Legislative Audit Committee to request a State Audit of the Metropolitan Water District of Southern California in order to have a comprehensive investigation into allegations and concerns regarding the workplace culture.

FISCAL IMPACT: There is no fiscal impact associated with the recommended action.

WORK PLAN: This item was not included in the Adopted Work Plan for Fiscal Year 2020-2021. This project is part of normal staff operations.

DISCUSSION: This item was continued from April 12, 2021 without discussion. However, since the April 12, 2021 agenda was posted, SB 55 was amended to incorporate the proposed amendments that had been included with the original report as Attachment 2. The current version of the bill, amended as of April 5, 2021, is attached with this report (Attachment 1). An updated Fact Sheet (Attachment 4), revised as of April 12, 2021, is also included.

Testimony was taken at first hearings on April 15, 2021 for both SB 55 and SB 765. For both bills, a further hearing will be set for a future date.

Since the original report was issued, additional information was also received regarding the allegations against the Metropolitan Water District of Southern California, including a copy of the resolution adopted by the City of Los Angeles City Council supporting any legislative effort by the Senate and Assembly Joint Legislative Audit Committee to conduct an investigation into the matter (Attachment 9). A list of California lawmakers and others who joined Metropolitan Water District workers in calling for a state audit into the allegations that submitted to the Las Virgenes-Malibu Council of Governments (COG) is also included (Attachment 10).

The following is information from the original staff report for this item when it was presented in the April 12, 2021 City Council agenda:

Senator Henry Stern has introduced two bills for consideration in the 2021-2022 legislative session, SB 55, co-authored by Senator Ben Allen, and SB 765, co-authored by Assembly Member Laura Friedman.

SB 55

Following the historically destructive fire seasons of 2018-2020, the State recognized it must develop a growth strategy that recognizes the joint effects of economic, housing, and climate crises while addressing the key area of fire risk. Existing law requires the Director of Forestry and Fire Protection to identify areas of the state as very high fire hazard severity zones (VHFHSZ) based on specified criteria. All of Malibu has been identified as being within a VHFHSZ, and a recent study found that approximately 2.7 million Californians live in VHFHSZ. Resiliency efforts, such as home hardening and defensible space requirements, are critical defenses but may not be enough to protect communities within a VHFHSZ.

SB 55 (Attachment 1) looks to address that shortfall by prohibiting new residential, commercial and industrial development within a VHFHSZ. Senator Stern's office has provided draft amendments to SB 55 (Attachment 2) that will be presented when the bill is considered. The amendments would do the following:

- Provide an exemption to the development prohibition if a local jurisdiction meets notated fire safety standards
- Clarifies the definition of a "new development" to explicitly allow for rebuilds and any 1:1 construction for existing dwelling units
- Allows any essential infrastructure maintenance
- Allows for construction of a new facility or infrastructure if it is intended for fire prevention or response

SB 765

SB 765 addresses the statewide standardized setback for accessory dwelling units (ADUs). The current standardized setback of four (4) feet for placement of an ADU does

not take into consideration the wide variation in parcel sizes that can range anywhere from a small, 5,000-square foot parcel to a parcel of 20 acres or more in a rural zone. In each case, an ADU would be required to be situated against a fence line and significantly closer to a neighbor's home on an adjacent property than to the home on the property where it is located. SB 765 would change the statewide standardized setback to instead allow cities to maintain a setback that is appropriate to their lot size and terrain.

Both bills are currently being considered by the Senate Governance and Finance Committee and Senate Housing Committee. Mayor Pro Tem Grisanti is requesting the Council authorize the Mayor to submit letters of support for SB 55 and SB 765 through the California Legislature Position Letters Portal. For further reference, fact sheets (Attachments 4 and 5) and draft letters of support (Attachments 6 and 7) are also attached.

Reports of Harassment in the Metropolitan Water District of Southern California

A [Los Angeles Times article published on February 12, 2021](#) reported on “a pattern of complaints alleging harassment and bullying of women” who worked for the Metropolitan Water District of Southern California. The article includes first-hand recollections of numerous instances of sexual harassment, bullying, discrimination, and retaliation, particularly for women and LGBTQIA+ people, many of whom worked in the District's apprentice program.

On March 9, 2021, Supervisor Janice Hahn presented an item to the Los Angeles County Board of Supervisors requesting Board authorization to send a letter under all five Supervisors' signatures to the California State Assembly Joint Legislative Audit Committee (Audit Committee) requesting a comprehensive investigation into these allegations (Attachment 8). Supervisor Hahn's motion carried unanimously.

Mayor Pro Tem Grisanti is requesting the Council authorize the Mayor to send a letter stating the City of Malibu joined with the County in requesting a comprehensive investigation and State Audit into these serious allegations and concerns regarding the workplace culture surrounding the women and LGBTQIA+ employees of the Metropolitan Water District of Southern California.

Introduced by Senators Stern and Allen

December 7, 2020

An act to amend Section 65915 of, and to add Section 51182.5 to, the Government Code, relating to land use.

LEGISLATIVE COUNSEL'S DIGEST

SB 55, as amended, Stern. Very high fire hazard severity zone: state responsibility area: development ~~prohibition~~. *prohibition: supplemental height and density bonuses.*

Existing law requires the Director of Forestry and Fire Protection to identify areas of the state as very high fire hazard severity zones based on specified criteria. Existing law requires a local agency to designate, by ordinance, very high hazard severity zones in its jurisdiction within 120 days of receiving recommendations from the director. Existing law authorizes a local agency to include areas within its jurisdiction not identified as very high fire hazard severity zones by the director as very high fire hazard severity zones following a specified finding supported by substantial evidence.

Existing law requires the State Board of Forestry and Fire Protection to determine, based on specified criteria, whether an area of the state is one for which the financial responsibility of preventing and suppressing fires is primarily the responsibility of the state. Existing law refers to these areas as "state responsibility areas."

This bill would, in furtherance of specified state housing ~~production~~ *production, sustainability communities strategies, greenhouse gas reduction*, and wildfire mitigation goals, prohibit the creation or approval of a new development, as defined, in a very high fire hazard severity

zone or a state responsibility ~~area~~. *area unless there is substantial evidence that the local agency has adopted a comprehensive, necessary, and appropriate wildfire prevention and community hardening strategy to mitigate significant risks of loss, injury, or death, as specified.* By imposing new duties on local governments with respect to the approval of new developments in very high fire hazard severity zones and state responsibility areas, this bill would impose a state-mandated local program.

Existing law, known as the Density Bonus Law, requires a city or county to provide a developer that proposes a housing development in the city or county with a density bonus and other incentives or concessions for the production of lower income housing units, or for the donation of land within the development, if the developer agrees to, among other things, construct a specified percentage of units for very low income, low-income, or moderate-income households or qualifying residents.

This bill would provide a qualifying developer a supplemental height bonus and a supplemental density bonus, as specified, if the development is located on a site that meets certain criteria, including, among others, not being located in a moderate, high, or very high fire hazard severity zone, as specified. By imposing additional requirements on local governments with respect to supplemental height and density bonuses, this bill would impose a state-mandated local program.

The bill would include findings that changes proposed by this bill address a matter of statewide concern rather than a municipal affair and, therefore, apply to all cities, including charter cities.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.

The people of the State of California do enact as follows:

- 1 SECTION 1. *It is the intent of the Legislature that this*
- 2 *measure’s provisions in Section 51182.5 of the Health and Safety*
- 3 *Code that prevent housing construction in fire hazard severity*
- 4 *zones and state responsibility areas not result in a decrease in the*

1 state’s supply of housing. It is the intent of the Legislature to help
2 prevent such a decrease by offering alternative density bonus
3 incentives, as specified.

4 ~~SECTION 1.~~

5 SEC. 2. Section 51182.5 is added to the Government Code, to
6 read:

7 51182.5. (a) Notwithstanding any law, in furtherance of state
8 housing—~~production~~ production, sustainability communities
9 strategies, greenhouse gas reduction, and wildfire mitigation goals
10 under Assembly Bill 101 (Chapter 159 of the Statutes of 2019),
11 Senate Bill 375 (Chapter 728 of the Statutes of 2008), Section
12 4290 of the Public Resources Code, and subdivision (g) of Section
13 65088, a new development shall not be created or approved in a
14 very high fire hazard severity zone or a state responsibility ~~area~~
15 area unless there is substantial evidence that the local agency has
16 adopted a comprehensive, necessary, and appropriate wildfire
17 prevention and community hardening strategy to mitigate
18 significant risks of loss, injury, or death. The wildfire prevention
19 and community hardening strategy may include, but is not limited
20 to, any of the following:

21 (1) Improved building standards described in Chapter 7A
22 (commencing with Section 701A.1) of Part 2 of Title 24 of the
23 California Code of Regulations.

24 (2) Requirements for structure hardening for critical
25 infrastructure and other existing development in the fire hazard
26 severity zone or state responsibility area.

27 (3) Emergency response plans.

28 (4) Emergency evacuation plans.

29 (5) Resiliency and hazard mitigation plans related to flood,
30 landslide, air quality, and other climate risks related to wildfire.

31 (b) For purposes of this ~~section~~, “development” section:

32 (1) “Development” means either of the following:

33 ~~(1) A~~ project containing residential dwellings, including, but
34 not limited to, mobilehomes, accessory dwelling units, and junior
35 accessory dwelling units, of one or more units or a subdivision of
36 land for the purpose of constructing one or more residential
37 dwelling units.

38 ~~(2) A project for commercial, retail, or industrial use.~~

39 (2) “New development” does not include either of the following:

1 (A) Construction required to maintain, repair, reconstruct,
2 restore, or rebuild a development that is involuntarily damaged
3 or destroyed by fire or other catastrophic event.

4 (B) Construction required to maintain, repair, reconstruct,
5 restore, or rebuild an existing residential dwelling.

6 (3) “Rebuild” means to build a new structure of the same or
7 smaller size as, and in place of, an existing structure or a structure
8 that is destroyed by fire or other catastrophic event.

9 (4) “Structure hardening” has the same meaning as that term
10 is defined in Section 8654.3.

11 SEC. 3. Section 65915 of the Government Code is amended to
12 read:

13 65915. (a) (1) When an applicant seeks a density bonus for
14 a housing development within, or for the donation of land for
15 housing within, the jurisdiction of a city, county, or city and county,
16 that local government shall comply with this section. A city,
17 county, or city and county shall adopt an ordinance that specifies
18 how compliance with this section will be implemented. Except as
19 otherwise provided in subdivision (s), failure to adopt an ordinance
20 shall not relieve a city, county, or city and county from complying
21 with this section.

22 (2) A local government shall not condition the submission,
23 review, or approval of an application pursuant to this chapter on
24 the preparation of an additional report or study that is not otherwise
25 required by state law, including this section. This subdivision does
26 not prohibit a local government from requiring an applicant to
27 provide reasonable documentation to establish eligibility for a
28 requested density bonus, incentives or concessions, as described
29 in subdivision (d), waivers or reductions of development standards,
30 as described in subdivision (e), and parking ratios, as described in
31 subdivision (p).

32 (3) In order to provide for the expeditious processing of a density
33 bonus application, the local government shall do all of the
34 following:

35 (A) Adopt procedures and timelines for processing a density
36 bonus application.

37 (B) Provide a list of all documents and information required to
38 be submitted with the density bonus application in order for the
39 density bonus application to be deemed complete. This list shall
40 be consistent with this chapter.

1 (C) Notify the applicant for a density bonus whether the
2 application is complete in a manner consistent with the timelines
3 specified in Section 65943.

4 (D) (i) If the local government notifies the applicant that the
5 application is deemed complete pursuant to subparagraph (C),
6 provide the applicant with a determination as to the following
7 matters:

8 (I) The amount of density bonus, calculated pursuant to
9 subdivision (f), for which the applicant is eligible.

10 (II) If the applicant requests a parking ratio pursuant to
11 subdivision (p), the parking ratio for which the applicant is eligible.

12 (III) If the applicant requests incentives or concessions pursuant
13 to subdivision (d) or waivers or reductions of development
14 standards pursuant to subdivision (e), whether the applicant has
15 provided adequate information for the local government to make
16 a determination as to those incentives, concessions, or waivers or
17 reductions of development standards.

18 (ii) Any determination required by this subparagraph shall be
19 based on the development project at the time the application is
20 deemed complete. The local government shall adjust the amount
21 of density bonus and parking ratios awarded pursuant to this section
22 based on any changes to the project during the course of
23 development.

24 (b) (1) A city, county, or city and county shall grant one density
25 bonus, the amount of which shall be as specified in subdivision
26 (f), and, if requested by the applicant and consistent with the
27 applicable requirements of this section, incentives or concessions,
28 as described in subdivision (d), waivers or reductions of
29 development standards, as described in subdivision (e), and parking
30 ratios, as described in subdivision (p), when an applicant for a
31 housing development seeks and agrees to construct a housing
32 development, excluding any units permitted by the density bonus
33 awarded pursuant to this section, that will contain at least any one
34 of the following:

35 (A) Ten percent of the total units of a housing development for
36 lower income households, as defined in Section 50079.5 of the
37 Health and Safety Code.

38 (B) Five percent of the total units of a housing development for
39 very low income households, as defined in Section 50105 of the
40 Health and Safety Code.

1 (C) A senior citizen housing development, as defined in Sections
2 51.3 and 51.12 of the Civil Code, or a mobilehome park that limits
3 residency based on age requirements for housing for older persons
4 pursuant to Section 798.76 or 799.5 of the Civil Code.

5 (D) Ten percent of the total dwelling units in a common interest
6 development, as defined in Section 4100 of the Civil Code, for
7 persons and families of moderate income, as defined in Section
8 50093 of the Health and Safety Code, provided that all units in the
9 development are offered to the public for purchase.

10 (E) Ten percent of the total units of a housing development for
11 transitional foster youth, as defined in Section 66025.9 of the
12 Education Code, disabled veterans, as defined in Section 18541,
13 or homeless persons, as defined in the federal McKinney-Vento
14 Homeless Assistance Act (42 U.S.C. Sec. 11301 et seq.). The units
15 described in this subparagraph shall be subject to a recorded
16 affordability restriction of 55 years and shall be provided at the
17 same affordability level as very low income units.

18 (F) (i) Twenty percent of the total units for lower income
19 students in a student housing development that meets the following
20 requirements:

21 (I) All units in the student housing development will be used
22 exclusively for undergraduate, graduate, or professional students
23 enrolled full time at an institution of higher education accredited
24 by the Western Association of Schools and Colleges or the
25 Accrediting Commission for Community and Junior Colleges. In
26 order to be eligible under this subclause, the developer shall, as a
27 condition of receiving a certificate of occupancy, provide evidence
28 to the city, county, or city and county that the developer has entered
29 into an operating agreement or master lease with one or more
30 institutions of higher education for the institution or institutions
31 to occupy all units of the student housing development with
32 students from that institution or institutions. An operating
33 agreement or master lease entered into pursuant to this subclause
34 is not violated or breached if, in any subsequent year, there are not
35 sufficient students enrolled in an institution of higher education
36 to fill all units in the student housing development.

37 (II) The applicable 20-percent units will be used for lower
38 income students. For purposes of this clause, “lower income
39 students” means students who have a household income and asset
40 level that does not exceed the level for Cal Grant A or Cal Grant

1 B award recipients as set forth in paragraph (1) of subdivision (k)
2 of Section 69432.7 of the Education Code. The eligibility of a
3 student under this clause shall be verified by an affidavit, award
4 letter, or letter of eligibility provided by the institution of higher
5 education that the student is enrolled in, as described in subclause
6 (I), or by the California Student Aid Commission that the student
7 receives or is eligible for financial aid, including an institutional
8 grant or fee waiver, from the college or university, the California
9 Student Aid Commission, or the federal government shall be
10 sufficient to satisfy this subclause.

11 (III) The rent provided in the applicable units of the development
12 for lower income students shall be calculated at 30 percent of 65
13 percent of the area median income for a single-room occupancy
14 unit type.

15 (IV) The development will provide priority for the applicable
16 affordable units for lower income students experiencing
17 homelessness. A homeless service provider, as defined in paragraph
18 (3) of subdivision (e) of Section 103577 of the Health and Safety
19 Code, or institution of higher education that has knowledge of a
20 person's homeless status may verify a person's status as homeless
21 for purposes of this subclause.

22 (ii) For purposes of calculating a density bonus granted pursuant
23 to this subparagraph, the term "unit" as used in this section means
24 one rental bed and its pro rata share of associated common area
25 facilities. The units described in this subparagraph shall be subject
26 to a recorded affordability restriction of 55 years.

27 (G) One hundred percent of all units in the development,
28 including total units and density bonus units, but exclusive of a
29 manager's unit or units, are for lower income households, as
30 defined by Section 50079.5 of the Health and Safety Code, except
31 that up to 20 percent of the units in the development, including
32 total units and density bonus units, may be for moderate-income
33 households, as defined in Section 50053 of the Health and Safety
34 Code.

35 (2) For purposes of calculating the amount of the density bonus
36 pursuant to subdivision (f), an applicant who requests a density
37 bonus pursuant to this subdivision shall elect whether the bonus
38 shall be awarded on the basis of subparagraph (A), (B), (C), (D),
39 (E), (F), or (G) of paragraph (1).

1 (3) For the purposes of this section, “total units,” “total dwelling
2 units,” or “total rental beds” does not include units added by a
3 density bonus awarded pursuant to this section or any local law
4 granting a greater density bonus.

5 (c) (1) (A) An applicant shall agree to, and the city, county,
6 or city and county shall ensure, the continued affordability of all
7 very low and low-income rental units that qualified the applicant
8 for the award of the density bonus for 55 years or a longer period
9 of time if required by the construction or mortgage financing
10 assistance program, mortgage insurance program, or rental subsidy
11 program.

12 (B) (i) Except as otherwise provided in clause (ii), rents for the
13 lower income density bonus units shall be set at an affordable rent,
14 as defined in Section 50053 of the Health and Safety Code.

15 (ii) For housing developments meeting the criteria of
16 subparagraph (G) of paragraph (1) of subdivision (b), rents for all
17 units in the development, including both base density and density
18 bonus units, shall be as follows:

19 (I) The rent for at least 20 percent of the units in the
20 development shall be set at an affordable rent, as defined in Section
21 50053 of the Health and Safety Code.

22 (II) The rent for the remaining units in the development shall
23 be set at an amount consistent with the maximum rent levels for
24 a housing development that receives an allocation of state or federal
25 low-income housing tax credits from the California Tax Credit
26 Allocation Committee.

27 (2) An applicant shall agree to, and the city, county, or city and
28 county shall ensure that, the initial occupant of all for-sale units
29 that qualified the applicant for the award of the density bonus are
30 persons and families of very low, low, or moderate income, as
31 required, and that the units are offered at an affordable housing
32 cost, as that cost is defined in Section 50052.5 of the Health and
33 Safety Code. The local government shall enforce an equity sharing
34 agreement, unless it is in conflict with the requirements of another
35 public funding source or law. The following apply to the equity
36 sharing agreement:

37 (A) Upon resale, the seller of the unit shall retain the value of
38 any improvements, the downpayment, and the seller’s proportionate
39 share of appreciation. The local government shall recapture any
40 initial subsidy, as defined in subparagraph (B), and its proportionate

1 share of appreciation, as defined in subparagraph (C), which
2 amount shall be used within five years for any of the purposes
3 described in subdivision (e) of Section 33334.2 of the Health and
4 Safety Code that promote home ownership.

5 (B) For purposes of this subdivision, the local government's
6 initial subsidy shall be equal to the fair market value of the home
7 at the time of initial sale minus the initial sale price to the
8 moderate-income household, plus the amount of any downpayment
9 assistance or mortgage assistance. If upon resale the market value
10 is lower than the initial market value, then the value at the time of
11 the resale shall be used as the initial market value.

12 (C) For purposes of this subdivision, the local government's
13 proportionate share of appreciation shall be equal to the ratio of
14 the local government's initial subsidy to the fair market value of
15 the home at the time of initial sale.

16 (3) (A) An applicant shall be ineligible for a density bonus or
17 any other incentives or concessions under this section if the housing
18 development is proposed on any property that includes a parcel or
19 parcels on which rental dwelling units are or, if the dwelling units
20 have been vacated or demolished in the five-year period preceding
21 the application, have been subject to a recorded covenant,
22 ordinance, or law that restricts rents to levels affordable to persons
23 and families of lower or very low income; subject to any other
24 form of rent or price control through a public entity's valid exercise
25 of its police power; or occupied by lower or very low income
26 households, unless the proposed housing development replaces
27 those units, and either of the following applies:

28 (i) The proposed housing development, inclusive of the units
29 replaced pursuant to this paragraph, contains affordable units at
30 the percentages set forth in subdivision (b).

31 (ii) Each unit in the development, exclusive of a manager's unit
32 or units, is affordable to, and occupied by, either a lower or very
33 low income household.

34 (B) For the purposes of this paragraph, "replace" shall mean
35 either of the following:

36 (i) If any dwelling units described in subparagraph (A) are
37 occupied on the date of application, the proposed housing
38 development shall provide at least the same number of units of
39 equivalent size to be made available at affordable rent or affordable
40 housing cost to, and occupied by, persons and families in the same

1 or lower income category as those households in occupancy. If
2 the income category of the household in occupancy is not known,
3 it shall be rebuttably presumed that lower income renter households
4 occupied these units in the same proportion of lower income renter
5 households to all renter households within the jurisdiction, as
6 determined by the most recently available data from the United
7 States Department of Housing and Urban Development's
8 Comprehensive Housing Affordability Strategy database. For
9 unoccupied dwelling units described in subparagraph (A) in a
10 development with occupied units, the proposed housing
11 development shall provide units of equivalent size to be made
12 available at affordable rent or affordable housing cost to, and
13 occupied by, persons and families in the same or lower income
14 category as the last household in occupancy. If the income category
15 of the last household in occupancy is not known, it shall be
16 rebuttably presumed that lower income renter households occupied
17 these units in the same proportion of lower income renter
18 households to all renter households within the jurisdiction, as
19 determined by the most recently available data from the United
20 States Department of Housing and Urban Development's
21 Comprehensive Housing Affordability Strategy database. All
22 replacement calculations resulting in fractional units shall be
23 rounded up to the next whole number. If the replacement units will
24 be rental dwelling units, these units shall be subject to a recorded
25 affordability restriction for at least 55 years. If the proposed
26 development is for-sale units, the units replaced shall be subject
27 to paragraph (2).

28 (ii) If all dwelling units described in subparagraph (A) have
29 been vacated or demolished within the five-year period preceding
30 the application, the proposed housing development shall provide
31 at least the same number of units of equivalent size as existed at
32 the highpoint of those units in the five-year period preceding the
33 application to be made available at affordable rent or affordable
34 housing cost to, and occupied by, persons and families in the same
35 or lower income category as those persons and families in
36 occupancy at that time, if known. If the incomes of the persons
37 and families in occupancy at the highpoint is not known, it shall
38 be rebuttably presumed that low-income and very low income
39 renter households occupied these units in the same proportion of
40 low-income and very low income renter households to all renter

1 households within the jurisdiction, as determined by the most
2 recently available data from the United States Department of
3 Housing and Urban Development’s Comprehensive Housing
4 Affordability Strategy database. All replacement calculations
5 resulting in fractional units shall be rounded up to the next whole
6 number. If the replacement units will be rental dwelling units,
7 these units shall be subject to a recorded affordability restriction
8 for at least 55 years. If the proposed development is for-sale units,
9 the units replaced shall be subject to paragraph (2).

10 (C) Notwithstanding subparagraph (B), for any dwelling unit
11 described in subparagraph (A) that is or was, within the five-year
12 period preceding the application, subject to a form of rent or price
13 control through a local government’s valid exercise of its police
14 power and that is or was occupied by persons or families above
15 lower income, the city, county, or city and county may do either
16 of the following:

17 (i) Require that the replacement units be made available at
18 affordable rent or affordable housing cost to, and occupied by,
19 low-income persons or families. If the replacement units will be
20 rental dwelling units, these units shall be subject to a recorded
21 affordability restriction for at least 55 years. If the proposed
22 development is for-sale units, the units replaced shall be subject
23 to paragraph (2).

24 (ii) Require that the units be replaced in compliance with the
25 jurisdiction’s rent or price control ordinance, provided that each
26 unit described in subparagraph (A) is replaced. Unless otherwise
27 required by the jurisdiction’s rent or price control ordinance, these
28 units shall not be subject to a recorded affordability restriction.

29 (D) For purposes of this paragraph, “equivalent size” means
30 that the replacement units contain at least the same total number
31 of bedrooms as the units being replaced.

32 (E) Subparagraph (A) does not apply to an applicant seeking a
33 density bonus for a proposed housing development if the
34 applicant’s application was submitted to, or processed by, a city,
35 county, or city and county before January 1, 2015.

36 (d) (1) An applicant for a density bonus pursuant to subdivision
37 (b) may submit to a city, county, or city and county a proposal for
38 the specific incentives or concessions that the applicant requests
39 pursuant to this section, and may request a meeting with the city,
40 county, or city and county. The city, county, or city and county

1 shall grant the concession or incentive requested by the applicant
2 unless the city, county, or city and county makes a written finding,
3 based upon substantial evidence, of any of the following:

4 (A) The concession or incentive does not result in identifiable
5 and actual cost reductions, consistent with subdivision (k), to
6 provide for affordable housing costs, as defined in Section 50052.5
7 of the Health and Safety Code, or for rents for the targeted units
8 to be set as specified in subdivision (c).

9 (B) The concession or incentive would have a specific, adverse
10 impact, as defined in paragraph (2) of subdivision (d) of Section
11 65589.5, upon public health and safety or the physical environment
12 or on any real property that is listed in the California Register of
13 Historical Resources and for which there is no feasible method to
14 satisfactorily mitigate or avoid the specific, adverse impact without
15 rendering the development unaffordable to low-income and
16 moderate-income households.

17 (C) The concession or incentive would be contrary to state or
18 federal law.

19 (2) The applicant shall receive the following number of
20 incentives or concessions:

21 (A) One incentive or concession for projects that include at least
22 10 percent of the total units for lower income households, at least
23 5 percent for very low income households, or at least 10 percent
24 for persons and families of moderate income in a common interest
25 development.

26 (B) Two incentives or concessions for projects that include at
27 least 17 percent of the total units for lower income households, at
28 least 10 percent for very low income households, or at least 20
29 percent for persons and families of moderate income in a common
30 interest development.

31 (C) Three incentives or concessions for projects that include at
32 least 24 percent of the total units for lower income households, at
33 least 15 percent for very low income households, or at least 30
34 percent for persons and families of moderate income in a common
35 interest development.

36 (D) Four incentives or concessions for projects meeting the
37 criteria of subparagraph (G) of paragraph (1) of subdivision (b).
38 If the project is located within one-half mile of a major transit stop,
39 the applicant shall also receive a height increase of up to three
40 additional stories, or 33 feet.

1 (3) The applicant may initiate judicial proceedings if the city,
2 county, or city and county refuses to grant a requested density
3 bonus, incentive, or concession. If a court finds that the refusal to
4 grant a requested density bonus, incentive, or concession is in
5 violation of this section, the court shall award the plaintiff
6 reasonable attorney’s fees and costs of suit. Nothing in this
7 subdivision shall be interpreted to require a local government to
8 grant an incentive or concession that has a specific, adverse impact,
9 as defined in paragraph (2) of subdivision (d) of Section 65589.5,
10 upon health, safety, or the physical environment, and for which
11 there is no feasible method to satisfactorily mitigate or avoid the
12 specific adverse impact. Nothing in this subdivision shall be
13 interpreted to require a local government to grant an incentive or
14 concession that would have an adverse impact on any real property
15 that is listed in the California Register of Historical Resources.
16 The city, county, or city and county shall establish procedures for
17 carrying out this section that shall include legislative body approval
18 of the means of compliance with this section.

19 (4) The city, county, or city and county shall bear the burden
20 of proof for the denial of a requested concession or incentive.

21 (e) (1) In no case may a city, county, or city and county apply
22 any development standard that will have the effect of physically
23 precluding the construction of a development meeting the criteria
24 of subdivision (b) at the densities or with the concessions or
25 incentives permitted by this section. Subject to paragraph (3), an
26 applicant may submit to a city, county, or city and county a
27 proposal for the waiver or reduction of development standards that
28 will have the effect of physically precluding the construction of a
29 development meeting the criteria of subdivision (b) at the densities
30 or with the concessions or incentives permitted under this section,
31 and may request a meeting with the city, county, or city and county.
32 If a court finds that the refusal to grant a waiver or reduction of
33 development standards is in violation of this section, the court
34 shall award the plaintiff reasonable attorney’s fees and costs of
35 suit. Nothing in this subdivision shall be interpreted to require a
36 local government to waive or reduce development standards if the
37 waiver or reduction would have a specific, adverse impact, as
38 defined in paragraph (2) of subdivision (d) of Section 65589.5,
39 upon health, safety, or the physical environment, and for which
40 there is no feasible method to satisfactorily mitigate or avoid the

1 specific adverse impact. Nothing in this subdivision shall be
 2 interpreted to require a local government to waive or reduce
 3 development standards that would have an adverse impact on any
 4 real property that is listed in the California Register of Historical
 5 Resources, or to grant any waiver or reduction that would be
 6 contrary to state or federal law.

7 (2) A proposal for the waiver or reduction of development
 8 standards pursuant to this subdivision shall neither reduce nor
 9 increase the number of incentives or concessions to which the
 10 applicant is entitled pursuant to subdivision (d).

11 (3) A housing development that receives a waiver from any
 12 maximum controls on density pursuant to clause (ii) of
 13 subparagraph (D) of paragraph (3) of subdivision (f) shall only be
 14 eligible for a waiver or reduction of development standards as
 15 provided in subparagraph (D) of paragraph (2) of subdivision (d)
 16 and clause (ii) of subparagraph (D) of paragraph (3) of subdivision
 17 (f), unless the city, county, or city and county agrees to additional
 18 waivers or reductions of development standards.

19 (f) For the purposes of this chapter, “density bonus” means a
 20 density increase over the otherwise maximum allowable gross
 21 residential density as of the date of application by the applicant to
 22 the city, county, or city and county, or, if elected by the applicant,
 23 a lesser percentage of density increase, including, but not limited to,
 24 no increase in density. The amount of density increase to which
 25 the applicant is entitled shall vary according to the amount by
 26 which the percentage of affordable housing units exceeds the
 27 percentage established in subdivision (b).

28 (1) For housing developments meeting the criteria of
 29 subparagraph (A) of paragraph (1) of subdivision (b), the density
 30 bonus shall be calculated as follows:

	Percentage Low-Income Units	Percentage Density Bonus
31		
32		
33		
34	10	20
35	11	21.5
36	12	23
37	13	24.5
38	14	26
39	15	27.5
40	16	29

1	17	30.5
2	18	32
3	19	33.5
4	20	35
5	21	38.75
6	22	42.5
7	23	46.25
8	24	50
9		

10 (2) For housing developments meeting the criteria of
 11 subparagraph (B) of paragraph (1) of subdivision (b), the density
 12 bonus shall be calculated as follows:

13	Percentage Very Low Income Units	Percentage Density Bonus
14		
15	5	20
16	6	22.5
17	7	25
18	8	27.5
19	9	30
20	10	32.5
21	11	35
22	12	38.75
23	13	42.5
24	14	46.25
25	15	50
26		

27 (3) (A) For housing developments meeting the criteria of
 28 subparagraph (C) of paragraph (1) of subdivision (b), the density
 29 bonus shall be 20 percent of the number of senior housing units.

30 (B) For housing developments meeting the criteria of
 31 subparagraph (E) of paragraph (1) of subdivision (b), the density
 32 bonus shall be 20 percent of the number of the type of units giving
 33 rise to a density bonus under that subparagraph.

34 (C) For housing developments meeting the criteria of
 35 subparagraph (F) of paragraph (1) of subdivision (b), the density
 36 bonus shall be 35 percent of the student housing units.

37 (D) For housing developments meeting the criteria of
 38 subparagraph (G) of paragraph (1) of subdivision (b), the following
 39 shall apply:

1 (i) Except as otherwise provided in clause (ii), the density bonus
2 shall be 80 percent of the number of units for lower income
3 households.

4 (ii) If the housing development is located within one-half mile
5 of a major transit stop, the city, county, or city and county shall
6 not impose any maximum controls on density.

7 (4) For housing developments meeting the criteria of
8 subparagraph (D) of paragraph (1) of subdivision (b), the density
9 bonus shall be calculated as follows:

10	11 Percentage Moderate-Income Units	12 Percentage Density Bonus
12	10	5
13	11	6
14	12	7
15	13	8
16	14	9
17	15	10
18	16	11
19	17	12
20	18	13
21	19	14
22	20	15
23	21	16
24	22	17
25	23	18
26	24	19
27	25	20
28	26	21
29	27	22
30	28	23
31	29	24
32	30	25
33	31	26
34	32	27
35	33	28
36	34	29
37	35	30
38	36	31
39	37	32
40	38	33

1	39	34
2	40	35
3	41	38.75
4	42	42.5
5	43	46.25
6	44	50

7
8 (5) All density calculations resulting in fractional units shall be
9 rounded up to the next whole number. The granting of a density
10 bonus shall not require, or be interpreted, in and of itself, to require
11 a general plan amendment, local coastal plan amendment, zoning
12 change, or other discretionary approval.

13 (g) (1) When an applicant for a tentative subdivision map,
14 parcel map, or other residential development approval donates
15 land to a city, county, or city and county in accordance with this
16 subdivision, the applicant shall be entitled to a 15-percent increase
17 above the otherwise maximum allowable residential density for
18 the entire development, as follows:

19	Percentage Very Low Income	Percentage Density Bonus
20		
21	10	15
22	11	16
23	12	17
24	13	18
25	14	19
26	15	20
27	16	21
28	17	22
29	18	23
30	19	24
31	20	25
32	21	26
33	22	27
34	23	28
35	24	29
36	25	30
37	26	31

35

(2) This increase shall be in addition to any increase in density mandated by subdivision (b), up to a maximum combined mandated density increase of 35 percent if an applicant seeks an increase pursuant to both this subdivision and subdivision (b). All density calculations resulting in fractional units shall be rounded up to the next whole number. Nothing in this subdivision shall be construed to enlarge or diminish the authority of a city, county, or city and county to require a developer to donate land as a condition of development. An applicant shall be eligible for the increased density bonus described in this subdivision if all of the following conditions are met:

(A) The applicant donates and transfers the land no later than the date of approval of the final subdivision map, parcel map, or residential development application.

(B) The developable acreage and zoning classification of the land being transferred are sufficient to permit construction of units affordable to very low income households in an amount not less than 10 percent of the number of residential units of the proposed development.

(C) The transferred land is at least one acre in size or of sufficient size to permit development of at least 40 units, has the appropriate general plan designation, is appropriately zoned with appropriate development standards for development at the density described in paragraph (3) of subdivision (c) of Section 65583.2, and is or will be served by adequate public facilities and infrastructure.

(D) The transferred land shall have all of the permits and approvals, other than building permits, necessary for the development of the very low income housing units on the transferred land, not later than the date of approval of the final subdivision map, parcel map, or residential development application, except that the local government may subject the proposed development to subsequent design review to the extent authorized by subdivision (i) of Section 65583.2 if the design is not reviewed by the local government before the time of transfer.

(E) The transferred land and the affordable units shall be subject to a deed restriction ensuring continued affordability of the units

1 consistent with paragraphs (1) and (2) of subdivision (c), which
2 shall be recorded on the property at the time of the transfer.

3 (F) The land is transferred to the local agency or to a housing
4 developer approved by the local agency. The local agency may
5 require the applicant to identify and transfer the land to the
6 developer.

7 (G) The transferred land shall be within the boundary of the
8 proposed development or, if the local agency agrees, within
9 one-quarter mile of the boundary of the proposed development.

10 (H) A proposed source of funding for the very low income units
11 shall be identified not later than the date of approval of the final
12 subdivision map, parcel map, or residential development
13 application.

14 (h) (1) When an applicant proposes to construct a housing
15 development that conforms to the requirements of subdivision (b)
16 and includes a childcare facility that will be located on the premises
17 of, as part of, or adjacent to, the project, the city, county, or city
18 and county shall grant either of the following:

19 (A) An additional density bonus that is an amount of square
20 feet of residential space that is equal to or greater than the amount
21 of square feet in the childcare facility.

22 (B) An additional concession or incentive that contributes
23 significantly to the economic feasibility of the construction of the
24 childcare facility.

25 (2) The city, county, or city and county shall require, as a
26 condition of approving the housing development, that the following
27 occur:

28 (A) The childcare facility shall remain in operation for a period
29 of time that is as long as or longer than the period of time during
30 which the density bonus units are required to remain affordable
31 pursuant to subdivision (c).

32 (B) Of the children who attend the childcare facility, the children
33 of very low income households, lower income households, or
34 families of moderate income shall equal a percentage that is equal
35 to or greater than the percentage of dwelling units that are required
36 for very low income households, lower income households, or
37 families of moderate income pursuant to subdivision (b).

38 (3) Notwithstanding any requirement of this subdivision, a city,
39 county, or city and county shall not be required to provide a density
40 bonus or concession for a childcare facility if it finds, based upon

1 substantial evidence, that the community has adequate childcare
2 facilities.

3 (4) “Childcare facility,” as used in this section, means a child
4 daycare facility other than a family daycare home, including, but
5 not limited to, infant centers, preschools, extended daycare
6 facilities, and schoolage childcare centers.

7 (i) *If the housing development qualifies for one or more density*
8 *bonuses pursuant to subdivisions (b) to (h), inclusive, and is located*
9 *on a site that meets all of the criteria in paragraphs (1) to (3),*
10 *inclusive, below, the development shall receive a supplemental*
11 *height bonus of 10 feet or 20 percent of the height limit that would*
12 *otherwise apply to the development, whichever is greater, and a*
13 *supplemental density bonus of 20 percent of the density limit that*
14 *would otherwise apply to the development. These bonuses are in*
15 *addition to the bonuses and waivers or concessions otherwise*
16 *available to the project pursuant to subdivisions (b) through (h),*
17 *inclusive.*

18 (1) *The site is not located in a moderate, high or very high fire*
19 *hazard severity zone as mapped by the Department of Forestry*
20 *and Fire Protection’s most recent Fire Hazard Severity Zone map.*

21 (2) (A) *If the site is a legal parcel or parcels located in a city,*
22 *the city boundaries include some portion of either an urbanized*
23 *area or urban cluster, as designated by the United States Census*
24 *Bureau.*

25 (B) *If the site is a legal parcel or parcels located in the*
26 *unincorporated area of a county, the legal parcel or parcels are*
27 *wholly within the boundaries of an urbanized area or urban cluster,*
28 *as designated by the United States Census Bureau.*

29 (3) *At least 75 percent of the perimeter of the site adjoins parcels*
30 *that are developed with urban uses. For the purposes of this*
31 *subdivision, parcels that are only separated by a street or highway*
32 *shall be considered to be adjoined.*

33 (i)

34 (j) “Housing development,” as used in this section, means a
35 development project for five or more residential units, including
36 mixed-use developments. For the purposes of this section, “housing
37 development” also includes a subdivision or common interest
38 development, as defined in Section 4100 of the Civil Code,
39 approved by a city, county, or city and county and consists of
40 residential units or unimproved residential lots and either a project

1 to substantially rehabilitate and convert an existing commercial
2 building to residential use or the substantial rehabilitation of an
3 existing multifamily dwelling, as defined in subdivision (d) of
4 Section 65863.4, where the result of the rehabilitation would be a
5 net increase in available residential units. For the purpose of
6 calculating a density bonus, the residential units shall be on
7 contiguous sites that are the subject of one development
8 application, but do not have to be based upon individual
9 subdivision maps or parcels. The density bonus shall be permitted
10 in geographic areas of the housing development other than the
11 areas where the units for the lower income households are located.

12 ~~(j)~~

13 *(k)* (1) The granting of a concession or incentive shall not
14 require or be interpreted, in and of itself, to require a general plan
15 amendment, local coastal plan amendment, zoning change, study,
16 or other discretionary approval. For purposes of this subdivision,
17 “study” does not include reasonable documentation to establish
18 eligibility for the concession or incentive or to demonstrate that
19 the incentive or concession meets the definition set forth in
20 subdivision ~~(k)~~. *(l)*. This provision is declaratory of existing law.

21 (2) Except as provided in subdivisions (d) and (e), the granting
22 of a density bonus shall not require or be interpreted to require the
23 waiver of a local ordinance or provisions of a local ordinance
24 unrelated to development standards.

25 ~~(k)~~

26 *(l)* For the purposes of this chapter, concession or incentive
27 means any of the following:

28 (1) A reduction in site development standards or a modification
29 of zoning code requirements or architectural design requirements
30 that exceed the minimum building standards approved by the
31 California Building Standards Commission as provided in Part 2.5
32 (commencing with Section 18901) of Division 13 of the Health
33 and Safety Code, including, but not limited to, a reduction in
34 setback and square footage requirements and in the ratio of
35 vehicular parking spaces that would otherwise be required that
36 results in identifiable and actual cost reductions, to provide for
37 affordable housing costs, as defined in Section 50052.5 of the
38 Health and Safety Code, or for rents for the targeted units to be
39 set as specified in subdivision (c).

1 (2) Approval of mixed-use zoning in conjunction with the
 2 housing project if commercial, office, industrial, or other land uses
 3 will reduce the cost of the housing development and if the
 4 commercial, office, industrial, or other land uses are compatible
 5 with the housing project and the existing or planned development
 6 in the area where the proposed housing project will be located.

7 (3) Other regulatory incentives or concessions proposed by the
 8 developer or the city, county, or city and county that result in
 9 identifiable and actual cost reductions to provide for affordable
 10 housing costs, as defined in Section 50052.5 of the Health and
 11 Safety Code, or for rents for the targeted units to be set as specified
 12 in subdivision (c).

13 ~~(t)~~

14 (m) Subdivision~~(k)~~ (l) does not limit or require the provision
 15 of direct financial incentives for the housing development,
 16 including the provision of publicly owned land, by the city, county,
 17 or city and county, or the waiver of fees or dedication requirements.

18 ~~(m)~~

19 (n) This section does not supersede or in any way alter or lessen
 20 the effect or application of the California Coastal Act of 1976
 21 (Division 20 (commencing with Section 30000) of the Public
 22 Resources Code). Any density bonus, concessions, incentives,
 23 waivers or reductions of development standards, and parking ratios
 24 to which the applicant is entitled under this section shall be
 25 permitted in a manner that is consistent with this section and
 26 Division 20 (commencing with Section 30000) of the Public
 27 Resources Code.

28 ~~(n)~~

29 (o) If permitted by local ordinance, nothing in this section shall
 30 be construed to prohibit a city, county, or city and county from
 31 granting a density bonus greater than what is described in this
 32 section for a development that meets the requirements of this
 33 section or from granting a proportionately lower density bonus
 34 than what is required by this section for developments that do not
 35 meet the requirements of this section.

36 ~~(o)~~

37 (p) For purposes of this section, the following definitions shall
 38 apply:

39 (1) “Development standard” includes a site or construction
 40 condition, including, but not limited to, a height limitation, a

1 setback requirement, a floor area ratio, an onsite open-space
2 requirement, or a parking ratio that applies to a residential
3 development pursuant to any ordinance, general plan element,
4 specific plan, charter, or other local condition, law, policy,
5 resolution, or regulation.

6 (2) “Located within one-half mile of a major transit stop” means
7 that any point on a proposed development, for which an applicant
8 seeks a density bonus, other incentives or concessions, waivers or
9 reductions of development standards, or a vehicular parking ratio
10 pursuant to this section, is within one-half mile of any point on
11 the property on which a major transit stop is located, including
12 any parking lot owned by the transit authority or other local agency
13 operating the major transit stop.

14 (3) “Major transit stop” has the same meaning as defined in
15 subdivision (b) of Section 21155 of the Public Resources Code.

16 (4) “Maximum allowable residential density” means the density
17 allowed under the zoning ordinance and land use element of the
18 general plan, or, if a range of density is permitted, means the
19 maximum allowable density for the specific zoning range and land
20 use element of the general plan applicable to the project. If the
21 density allowed under the zoning ordinance is inconsistent with
22 the density allowed under the land use element of the general plan,
23 the general plan density shall prevail.

24 ~~(p)~~

25 (q) (1) Except as provided in paragraphs (2), (3), and (4), upon
26 the request of the developer, a city, county, or city and county shall
27 not require a vehicular parking ratio, inclusive of parking for
28 persons with a disability and guests, of a development meeting the
29 criteria of subdivisions (b) and (c), that exceeds the following
30 ratios:

31 (A) Zero to one bedroom: one onsite parking space.

32 (B) Two to three bedrooms: one and one-half onsite parking
33 spaces.

34 (C) Four and more bedrooms: two and one-half parking spaces.

35 (2) (A) Notwithstanding paragraph (1), if a development
36 includes at least 20 percent low-income units for housing
37 developments meeting the criteria of subparagraph (A) of paragraph
38 (1) of subdivision (b) or at least 11 percent very low income units
39 for housing developments meeting the criteria of subparagraph
40 (B) of paragraph (1) of subdivision (b), is located within one-half

1 mile of a major transit stop, and there is unobstructed access to
 2 the major transit stop from the development, then, upon the request
 3 of the developer, a city, county, or city and county shall not impose
 4 a vehicular parking ratio, inclusive of parking for persons with a
 5 disability and guests, that exceeds 0.5 spaces per unit.

6 (B) For purposes of this subdivision, a development shall have
 7 unobstructed access to a major transit stop if a resident is able to
 8 access the major transit stop without encountering natural or
 9 constructed impediments. For purposes of this subparagraph,
 10 “natural or constructed impediments” includes, but is not limited
 11 to, freeways, rivers, mountains, and bodies of water, but does not
 12 include residential structures, shopping centers, parking lots, or
 13 rails used for transit.

14 (3) Notwithstanding paragraph (1), if a development consists
 15 solely of rental units, exclusive of a manager’s unit or units, with
 16 an affordable housing cost to lower income families, as provided
 17 in Section 50052.5 of the Health and Safety Code, then, upon the
 18 request of the developer, a city, county, or city and county shall
 19 not impose vehicular parking standards if the development meets
 20 either of the following criteria:

21 (A) The development is located within one-half mile of a major
 22 transit stop and there is unobstructed access to the major transit
 23 stop from the development.

24 (B) The development is a for-rent housing development for
 25 individuals who are 62 years of age or older that complies with
 26 Sections 51.2 and 51.3 of the Civil Code and the development has
 27 either paratransit service or unobstructed access, within one-half
 28 mile, to fixed bus route service that operates at least eight times
 29 per day.

30 (4) Notwithstanding paragraphs (1) and (8), if a development
 31 consists solely of rental units, exclusive of a manager’s unit or
 32 units, with an affordable housing cost to lower income families,
 33 as provided in Section 50052.5 of the Health and Safety Code, and
 34 the development is either a special needs housing development,
 35 as defined in Section 51312 of the Health and Safety Code, or a
 36 supportive housing development, as defined in Section 50675.14
 37 of the Health and Safety Code, then, upon the request of the
 38 developer, a city, county, or city and county shall not impose any
 39 minimum vehicular parking requirement. A development that is
 40 a special needs housing development shall have either paratransit

1 service or unobstructed access, within one-half mile, to fixed bus
2 route service that operates at least eight times per day.

3 (5) If the total number of parking spaces required for a
4 development is other than a whole number, the number shall be
5 rounded up to the next whole number. For purposes of this
6 subdivision, a development may provide onsite parking through
7 tandem parking or uncovered parking, but not through onstreet
8 parking.

9 (6) This subdivision shall apply to a development that meets
10 the requirements of subdivisions (b) and (c), but only at the request
11 of the applicant. An applicant may request parking incentives or
12 concessions beyond those provided in this subdivision pursuant
13 to subdivision (d).

14 (7) This subdivision does not preclude a city, county, or city
15 and county from reducing or eliminating a parking requirement
16 for development projects of any type in any location.

17 (8) Notwithstanding paragraphs (2) and (3), if a city, county,
18 city and county, or an independent consultant has conducted an
19 areawide or jurisdictionwide parking study in the last seven years,
20 then the city, county, or city and county may impose a higher
21 vehicular parking ratio not to exceed the ratio described in
22 paragraph (1), based upon substantial evidence found in the parking
23 study, that includes, but is not limited to, an analysis of parking
24 availability, differing levels of transit access, walkability access
25 to transit services, the potential for shared parking, the effect of
26 parking requirements on the cost of market-rate and subsidized
27 developments, and the lower rates of car ownership for low-income
28 and very low income individuals, including seniors and special
29 needs individuals. The city, county, or city and county shall pay
30 the costs of any new study. The city, county, or city and county
31 shall make findings, based on a parking study completed in
32 conformity with this paragraph, supporting the need for the higher
33 parking ratio.

34 (9) A request pursuant to this subdivision shall neither reduce
35 nor increase the number of incentives or concessions to which the
36 applicant is entitled pursuant to subdivision (d).

37 ~~(g)~~

38 (r) Each component of any density calculation, including base
39 density and bonus density, resulting in fractional units shall be

1 separately rounded up to the next whole number. The Legislature
 2 finds and declares that this provision is declaratory of existing law.
 3 ~~(r)~~
 4 (s) This chapter shall be interpreted liberally in favor of
 5 producing the maximum number of total housing units.
 6 ~~(s)~~
 7 (t) Notwithstanding any other law, if a city, including a charter
 8 city, county, or city and county has adopted an ordinance or a
 9 housing program, or both an ordinance and a housing program,
 10 that incentivizes the development of affordable housing that allows
 11 for density bonuses that exceed the density bonuses required by
 12 the version of this section effective through December 31, 2020,
 13 that city, county, or city and county is not required to amend or
 14 otherwise update its ordinance or corresponding affordable housing
 15 incentive program to comply with the amendments made to this
 16 section by the act adding this subdivision, and is exempt from
 17 complying with the incentive and concession calculation
 18 amendments made to this section by the act adding this subdivision
 19 as set forth in subdivision (d), particularly subparagraphs (C) and
 20 (D) of paragraph (2) of that subdivision, and the amendments made
 21 to the density tables under subdivision (f).

22 ~~SEC. 2.~~

23 *SEC. 4.* The Legislature finds and declares that the prohibition
 24 on the creation or approval of a new development within a zone
 25 of high fire danger as specified in this act is a matter of statewide
 26 concern and is not a municipal affair as that term is used in Section
 27 5 of Article XI of the California Constitution. Therefore, Section
 28 1 of this act adding Section 51182.5 to the Government Code
 29 applies to all cities, including charter cities.

30 ~~SEC. 3.~~

31 *SEC. 5.* No reimbursement is required by this act pursuant to
 32 Section 6 of Article XIII B of the California Constitution because
 33 a local agency or school district has the authority to levy service
 34 charges, fees, or assessments sufficient to pay for the program or
 35 level of service mandated by this act, within the meaning of Section
 36 17556 of the Government Code.

O

The people of the State of California do enact as follows:

SECTION 1. Section 51182.5 is added to the Government Code, to read:

51182.5. (a) Notwithstanding any law, in furtherance of state housing production and wildfire mitigation goals under Assembly Bill 101 (Chapter 159 of the Statutes of 2019), Section 4290 of the Public Resources Code, and subdivision (g) of Section 65088, a new development shall not be created or approved in a very high fire hazard severity zone or a state responsibility ~~area~~ *area unless the county and, if applicable, the city is in substantial compliance with the "Fire Hazard Planning, General Plan Technical Advice Series" guidance document updated by the Office of Planning and Research pursuant to Section 65040.21.*

(b) For purposes of this ~~section~~, *"development"* ~~section~~:

(1) *"Development"* means either of the following:

~~(1)~~

(A) A project containing residential dwellings, including, but not limited to, mobilehomes, accessory dwelling units, and junior accessory dwelling units, of one or more units or a subdivision of land for the purpose of constructing one or more residential dwelling units.

~~(2)~~

(B) A project for commercial, retail, or industrial use.

(2) *"New development"* does not include either of the following:

(A) *The reconstruction, restoration, or rebuilding of a development that is involuntarily damaged or destroyed by fire or other catastrophic event.*

(B) *Construction on an existing residential dwelling.*

(C) *Construction required to maintain a facility or infrastructure associated with the delivery of essential public services, including, but not limited to, the provision of water service, electric service, and wastewater collection and treatment.*

(D) *Construction of a new facility or infrastructure intended for fire prevention or response.*

(3) *"Substantial compliance"* means actual compliance with every essential and relevant aspect of the document described in subdivision (a).

SEC. 2. The Legislature finds and declares that the prohibition on the creation or approval of a new development within a zone of high fire danger as specified in this act is a matter of statewide concern and is not a municipal affair as that term is used in Section 5 of Article XI of the California Constitution. Therefore, Section 1 of this act adding Section 51182.5 to the Government Code applies to all cities, including charter cities.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because a local agency or school district has the authority to levy service charges, fees, or assessments sufficient to

pay for the program or level of service mandated by this act, within the meaning of Section 17556 of the Government Code.

(PU 20190SB__047496AMD)

Introduced by Senator Stern
(Principal coauthor: Assembly Member Friedman)

February 19, 2021

An act to amend Section 65852.2 of the Government Code, relating to land use.

LEGISLATIVE COUNSEL'S DIGEST

SB 765, as introduced, Stern. Accessory dwelling units: setbacks.

The Planning and Zoning Law, among other things, provides for the creation of accessory dwelling units by local ordinance, or, if a local agency has not adopted an ordinance, by ministerial approval, in accordance with specified standards and conditions. Existing law prohibits a local agency's accessory dwelling unit ordinance from imposing a setback requirement of more than 4 feet from the side and rear lot lines for an accessory dwelling unit that is not converted from an existing structure or a new structure constructed in the same location and to the same dimensions as an existing structure.

This bill would remove the above-described prohibition on a local agency's accessory dwelling unit ordinance, and would instead provide that the rear and side yard setback requirements for accessory dwelling units may be set by the local agency. The bill would authorize an accessory dwelling unit applicant to submit a request to the local agency for an alternative rear and side yard setback requirement if the local agency's setback requirements make the building of the accessory dwelling unit infeasible. The bill would prohibit any rear and side yard setback requirements established pursuant to these provisions from being greater than those in effect as of January 1, 2020. The bill would specify that if the local agency did not have an accessory dwelling unit

ordinance as of January 1, 2020, the applicable rear and side yard setback requirement is 4 feet.

By requiring local agencies to review an applicant’s request for an alternative rear and side yard setback requirement, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: yes.

The people of the State of California do enact as follows:

1 SECTION 1. Section 65852.2 of the Government Code, as
2 amended by Section 3.5 of Chapter 198 of the Statutes of 2020, is
3 amended to read:

4 65852.2. (a) (1) A local agency may, by ordinance, provide
5 for the creation of accessory dwelling units in areas zoned to allow
6 single-family or multifamily dwelling residential use. The
7 ordinance shall do all of the following:

8 (A) Designate areas within the jurisdiction of the local agency
9 where accessory dwelling units may be permitted. The designation
10 of areas may be based on the adequacy of water and sewer services
11 and the impact of accessory dwelling units on traffic flow and
12 public safety. A local agency that does not provide water or sewer
13 services shall consult with the local water or sewer service provider
14 regarding the adequacy of water and sewer services before
15 designating an area where accessory dwelling units may be
16 permitted.

17 (B) (i) Impose standards on accessory dwelling units that
18 include, but are not limited to, parking, height, setback, landscape,
19 architectural review, maximum size of a unit, and standards that
20 prevent adverse impacts on any real property that is listed in the
21 California Register of Historic Resources. These standards shall
22 not include requirements on minimum lot size.

23 (ii) Notwithstanding clause (i), a local agency may reduce or
24 eliminate parking requirements for any accessory dwelling unit
25 located within its jurisdiction.

1 (C) Provide that accessory dwelling units do not exceed the
2 allowable density for the lot upon which the accessory dwelling
3 unit is located, and that accessory dwelling units are a residential
4 use that is consistent with the existing general plan and zoning
5 designation for the lot.

6 (D) Require the accessory dwelling units to comply with all of
7 the following:

8 (i) The accessory dwelling unit may be rented separate from
9 the primary residence, but may not be sold or otherwise conveyed
10 separate from the primary residence.

11 (ii) The lot is zoned to allow single-family or multifamily
12 dwelling residential use and includes a proposed or existing
13 dwelling.

14 (iii) The accessory dwelling unit is either attached to, or located
15 within, the proposed or existing primary dwelling, including
16 attached garages, storage areas or similar uses, or an accessory
17 structure or detached from the proposed or existing primary
18 dwelling and located on the same lot as the proposed or existing
19 primary dwelling.

20 (iv) If there is an existing primary dwelling, the total floor area
21 of an attached accessory dwelling unit shall not exceed 50 percent
22 of the existing primary dwelling.

23 (v) The total floor area for a detached accessory dwelling unit
24 shall not exceed 1,200 square feet.

25 (vi) No passageway shall be required in conjunction with the
26 construction of an accessory dwelling unit.

27 (vii) No setback shall be required for an existing living area or
28 accessory structure or a structure constructed in the same location
29 and to the same dimensions as an existing structure that is
30 converted to an accessory dwelling unit or to a portion of an
31 accessory dwelling unit, and a setback of no more than four feet
32 from the side and rear lot lines shall be required for an accessory
33 dwelling unit that is not converted from an existing structure or a
34 new structure constructed in the same location and to the same
35 dimensions as an existing structure: *unit*.

36 (viii) (I) *Rear and side yard setback requirements for accessory*
37 *dwelling units shall be established by the local agency, except as*
38 *otherwise provided in clause (vii) and this clause.*

39 (II) *An applicant for an accessory dwelling unit may submit a*
40 *request to the local agency for an alternative rear and side yard*

1 setback requirement based upon specific site topographical
2 conditions if the local agency's setback requirements make the
3 building of the accessory dwelling unit infeasible. The local agency
4 may approve the request upon making a finding that the alternative
5 setback is necessary to make the building of the accessory dwelling
6 unit feasible and the alternative setback requirement adjusts the
7 setback requirement only to the extent necessary to accommodate
8 the accessory dwelling unit.

9 (III) In no event shall the local agency's rear and side yard
10 setback requirements be greater than those in effect as of January
11 1, 2020.

12 (IV) If the local agency did not have an accessory dwelling unit
13 ordinance as of January 1, 2020, the rear and side yard setback
14 requirement shall be four feet.

15 ~~(viii)~~

16 (ix) Local building code requirements that apply to detached
17 dwellings, as appropriate.

18 ~~(ix)~~

19 (x) Approval by the local health officer where a private sewage
20 disposal system is being used, if required.

21 ~~(x)~~

22 (xi) (I) Parking requirements for accessory dwelling units shall
23 not exceed one parking space per accessory dwelling unit or per
24 bedroom, whichever is less. These spaces may be provided as
25 tandem parking on a driveway.

26 (II) Offstreet parking shall be permitted in setback areas in
27 locations determined by the local agency or through tandem
28 parking, unless specific findings are made that parking in setback
29 areas or tandem parking is not feasible based upon specific site or
30 regional topographical or fire and life safety conditions.

31 (III) This clause shall not apply to an accessory dwelling unit
32 that is described in subdivision (d).

33 ~~(xi)~~

34 (xii) When a garage, carport, or covered parking structure is
35 demolished in conjunction with the construction of an accessory
36 dwelling unit or converted to an accessory dwelling unit, the local
37 agency shall not require that those offstreet parking spaces be
38 replaced.

39 ~~(xii)~~

1 (xiii) Accessory dwelling units shall not be required to provide
2 fire sprinklers if they are not required for the primary residence.

3 (2) The ordinance shall not be considered in the application of
4 any local ordinance, policy, or program to limit residential growth.

5 (3) A permit application for an accessory dwelling unit or a
6 junior accessory dwelling unit shall be considered and approved
7 ministerially without discretionary review or a hearing,
8 notwithstanding Section 65901 or 65906 or any local ordinance
9 regulating the issuance of variances or special use permits. The
10 permitting agency shall act on the application to create an accessory
11 dwelling unit or a junior accessory dwelling unit within 60 days
12 from the date the local agency receives a completed application if
13 there is an existing single-family or multifamily dwelling on the
14 lot. If the permit application to create an accessory dwelling unit
15 or a junior accessory dwelling unit is submitted with a permit
16 application to create a new single-family dwelling on the lot, the
17 permitting agency may delay acting on the permit application for
18 the accessory dwelling unit or the junior accessory dwelling unit
19 until the permitting agency acts on the permit application to create
20 the new single-family dwelling, but the application to create the
21 accessory dwelling unit or junior accessory dwelling unit shall be
22 considered without discretionary review or hearing. If the applicant
23 requests a delay, the 60-day time period shall be tolled for the
24 period of the delay. If the local agency has not acted upon the
25 completed application within 60 days, the application shall be
26 deemed approved. A local agency may charge a fee to reimburse
27 it for costs incurred to implement this paragraph, including the
28 costs of adopting or amending any ordinance that provides for the
29 creation of an accessory dwelling unit.

30 (4) An existing ordinance governing the creation of an accessory
31 dwelling unit by a local agency or an accessory dwelling ordinance
32 adopted by a local agency shall provide an approval process that
33 includes only ministerial provisions for the approval of accessory
34 dwelling units and shall not include any discretionary processes,
35 provisions, or requirements for those units, except as otherwise
36 provided in this subdivision. If a local agency has an existing
37 accessory dwelling unit ordinance that fails to meet the
38 requirements of this subdivision, that ordinance shall be null and
39 void and that agency shall thereafter apply the standards established
40 in this subdivision for the approval of accessory dwelling units,

1 unless and until the agency adopts an ordinance that complies with
2 this section.

3 (5) No other local ordinance, policy, or regulation shall be the
4 basis for the delay or denial of a building permit or a use permit
5 under this subdivision.

6 (6) This subdivision establishes the maximum standards that
7 local agencies shall use to evaluate a proposed accessory dwelling
8 unit on a lot that includes a proposed or existing single-family
9 dwelling. No additional standards, other than those provided in
10 this subdivision, shall be used or imposed, including any
11 owner-occupant requirement, except that a local agency may
12 require that the property be used for rentals of terms longer than
13 30 days.

14 (7) A local agency may amend its zoning ordinance or general
15 plan to incorporate the policies, procedures, or other provisions
16 applicable to the creation of an accessory dwelling unit if these
17 provisions are consistent with the limitations of this subdivision.

18 (8) An accessory dwelling unit that conforms to this subdivision
19 shall be deemed to be an accessory use or an accessory building
20 and shall not be considered to exceed the allowable density for the
21 lot upon which it is located, and shall be deemed to be a residential
22 use that is consistent with the existing general plan and zoning
23 designations for the lot. The accessory dwelling unit shall not be
24 considered in the application of any local ordinance, policy, or
25 program to limit residential growth.

26 (b) When a local agency that has not adopted an ordinance
27 governing accessory dwelling units in accordance with subdivision
28 (a) receives an application for a permit to create an accessory
29 dwelling unit pursuant to this subdivision, the local agency shall
30 approve or disapprove the application ministerially without
31 discretionary review pursuant to subdivision (a). The permitting
32 agency shall act on the application to create an accessory dwelling
33 unit or a junior accessory dwelling unit within 60 days from the
34 date the local agency receives a completed application if there is
35 an existing single-family or multifamily dwelling on the lot. If the
36 permit application to create an accessory dwelling unit or a junior
37 accessory dwelling unit is submitted with a permit application to
38 create a new single-family dwelling on the lot, the permitting
39 agency may delay acting on the permit application for the accessory
40 dwelling unit or the junior accessory dwelling unit until the

1 permitting agency acts on the permit application to create the new
2 single-family dwelling, but the application to create the accessory
3 dwelling unit or junior accessory dwelling unit shall still be
4 considered ministerially without discretionary review or a hearing.
5 If the applicant requests a delay, the 60-day time period shall be
6 tolled for the period of the delay. If the local agency has not acted
7 upon the completed application within 60 days, the application
8 shall be deemed approved.

9 (c) (1) Subject to paragraph (2), a local agency may establish
10 minimum and maximum unit size requirements for both attached
11 and detached accessory dwelling units.

12 (2) Notwithstanding paragraph (1), a local agency shall not
13 establish by ordinance any of the following:

14 (A) A minimum square footage requirement for either an
15 attached or detached accessory dwelling unit that prohibits an
16 efficiency unit.

17 (B) A maximum square footage requirement for either an
18 attached or detached accessory dwelling unit that is less than either
19 of the following:

20 (i) 850 square feet.

21 (ii) 1,000 square feet for an accessory dwelling unit that provides
22 more than one bedroom.

23 (C) Any other minimum or maximum size for an accessory
24 dwelling unit, size based upon a percentage of the proposed or
25 existing primary dwelling, or limits on lot coverage, floor area
26 ratio, open space, and minimum lot size, for either attached or
27 detached dwellings that does not permit at least an 800 square foot
28 accessory dwelling unit that is at least 16 feet in height ~~with~~
29 ~~four-foot side and rear yard setbacks~~ to be constructed in
30 compliance with all other local development standards.

31 (d) Notwithstanding any other law, a local agency, whether or
32 not it has adopted an ordinance governing accessory dwelling units
33 in accordance with subdivision (a), shall not impose parking
34 standards for an accessory dwelling unit in any of the following
35 instances:

36 (1) The accessory dwelling unit is located within one-half mile
37 walking distance of public transit.

38 (2) The accessory dwelling unit is located within an
39 architecturally and historically significant historic district.

1 (3) The accessory dwelling unit is part of the proposed or
2 existing primary residence or an accessory structure.

3 (4) When on-street parking permits are required but not offered
4 to the occupant of the accessory dwelling unit.

5 (5) When there is a car share vehicle located within one block
6 of the accessory dwelling unit.

7 (e) (1) Notwithstanding subdivisions (a) to (d), inclusive, a
8 local agency shall ministerially approve an application for a
9 building permit within a residential or mixed-use zone to create
10 any of the following:

11 (A) One accessory dwelling unit and one junior accessory
12 dwelling unit per lot with a proposed or existing single-family
13 dwelling if all of the following apply:

14 (i) The accessory dwelling unit or junior accessory dwelling
15 unit is within the proposed space of a single-family dwelling or
16 existing space of a single-family dwelling or accessory structure
17 and may include an expansion of not more than 150 square feet
18 beyond the same physical dimensions as the existing accessory
19 structure. An expansion beyond the physical dimensions of the
20 existing accessory structure shall be limited to accommodating
21 ingress and egress.

22 (ii) The space has exterior access from the proposed or existing
23 single-family dwelling.

24 (iii) The side and rear setbacks are sufficient for fire and safety.

25 (iv) The junior accessory dwelling unit complies with the
26 requirements of Section 65852.22.

27 (B) One detached, new construction, accessory dwelling unit
28 ~~that does not exceed four-foot side and rear yard setbacks~~ for a lot
29 with a proposed or existing single-family dwelling. The accessory
30 dwelling unit may be combined with a junior accessory dwelling
31 unit described in subparagraph (A). A local agency may impose
32 the following conditions on the accessory dwelling unit:

33 (i) A total floor area limitation of not more than 800 square feet.

34 (ii) A height limitation of 16 feet.

35 (C) (i) Multiple accessory dwelling units within the portions
36 of existing multifamily dwelling structures that are not used as
37 livable space, including, but not limited to, storage rooms, boiler
38 rooms, passageways, attics, basements, or garages, if each unit
39 complies with state building standards for dwellings.

1 (ii) A local agency shall allow at least one accessory dwelling
2 unit within an existing multifamily dwelling and shall allow up to
3 25 percent of the existing multifamily dwelling units.

4 (D) Not more than two accessory dwelling units that are located
5 on a lot that has an existing multifamily dwelling, but are detached
6 from that multifamily dwelling and are subject to a height limit of
7 ~~16 feet and four-foot rear yard and side setbacks.~~ *feet.*

8 (2) A local agency shall not require, as a condition for ministerial
9 approval of a permit application for the creation of an accessory
10 dwelling unit or a junior accessory dwelling unit, the correction
11 of nonconforming zoning conditions.

12 (3) The installation of fire sprinklers shall not be required in an
13 accessory dwelling unit if sprinklers are not required for the
14 primary residence.

15 (4) A local agency shall require that a rental of the accessory
16 dwelling unit created pursuant to this subdivision be for a term
17 longer than 30 days.

18 (5) A local agency may require, as part of the application for a
19 permit to create an accessory dwelling unit connected to an onsite
20 wastewater treatment system, a percolation test completed within
21 the last five years, or, if the percolation test has been recertified,
22 within the last 10 years.

23 (6) Notwithstanding subdivision (c) and paragraph (1) a local
24 agency that has adopted an ordinance by July 1, 2018, providing
25 for the approval of accessory dwelling units in multifamily
26 dwelling structures shall ministerially consider a permit application
27 to construct an accessory dwelling unit that is described in
28 paragraph (1), and may impose standards including, but not limited
29 to, design, development, and historic standards on said accessory
30 dwelling units. These standards shall not include requirements on
31 minimum lot size.

32 (f) (1) Fees charged for the construction of accessory dwelling
33 units shall be determined in accordance with Chapter 5
34 (commencing with Section 66000) and Chapter 7 (commencing
35 with Section 66012).

36 (2) An accessory dwelling unit shall not be considered by a
37 local agency, special district, or water corporation to be a new
38 residential use for purposes of calculating connection fees or
39 capacity charges for utilities, including water and sewer service,

1 unless the accessory dwelling unit was constructed with a new
2 single-family dwelling.

3 (3) (A) A local agency, special district, or water corporation
4 shall not impose any impact fee upon the development of an
5 accessory dwelling unit less than 750 square feet. Any impact fees
6 charged for an accessory dwelling unit of 750 square feet or more
7 shall be charged proportionately in relation to the square footage
8 of the primary dwelling unit.

9 (B) For purposes of this paragraph, “impact fee” has the same
10 meaning as the term “fee” is defined in subdivision (b) of Section
11 66000, except that it also includes fees specified in Section 66477.
12 “Impact fee” does not include any connection fee or capacity
13 charge charged by a local agency, special district, or water
14 corporation.

15 (4) For an accessory dwelling unit described in subparagraph
16 (A) of paragraph (1) of subdivision (e), a local agency, special
17 district, or water corporation shall not require the applicant to
18 install a new or separate utility connection directly between the
19 accessory dwelling unit and the utility or impose a related
20 connection fee or capacity charge, unless the accessory dwelling
21 unit was constructed with a new single-family home.

22 (5) For an accessory dwelling unit that is not described in
23 subparagraph (A) of paragraph (1) of subdivision (e), a local
24 agency, special district, or water corporation may require a new
25 or separate utility connection directly between the accessory
26 dwelling unit and the utility. Consistent with Section 66013, the
27 connection may be subject to a connection fee or capacity charge
28 that shall be proportionate to the burden of the proposed accessory
29 dwelling unit, based upon either its square feet or the number of
30 its drainage fixture unit (DFU) values, as defined in the Uniform
31 Plumbing Code adopted and published by the International
32 Association of Plumbing and Mechanical Officials, upon the water
33 or sewer system. This fee or charge shall not exceed the reasonable
34 cost of providing this service.

35 (g) This section does not limit the authority of local agencies
36 to adopt less restrictive requirements for the creation of an
37 accessory dwelling unit.

38 (h) (1) A local agency shall submit a copy of the ordinance
39 adopted pursuant to subdivision (a) to the Department of Housing
40 and Community Development within 60 days after adoption. After

1 adoption of an ordinance, the department may submit written
2 findings to the local agency as to whether the ordinance complies
3 with this section.

4 (2) (A) If the department finds that the local agency’s ordinance
5 does not comply with this section, the department shall notify the
6 local agency and shall provide the local agency with a reasonable
7 time, no longer than 30 days, to respond to the findings before
8 taking any other action authorized by this section.

9 (B) The local agency shall consider the findings made by the
10 department pursuant to subparagraph (A) and shall do one of the
11 following:

12 (i) Amend the ordinance to comply with this section.

13 (ii) Adopt the ordinance without changes. The local agency
14 shall include findings in its resolution adopting the ordinance that
15 explain the reasons the local agency believes that the ordinance
16 complies with this section despite the findings of the department.

17 (3) (A) If the local agency does not amend its ordinance in
18 response to the department’s findings or does not adopt a resolution
19 with findings explaining the reason the ordinance complies with
20 this section and addressing the department’s findings, the
21 department shall notify the local agency and may notify the
22 Attorney General that the local agency is in violation of state law.

23 (B) Before notifying the Attorney General that the local agency
24 is in violation of state law, the department may consider whether
25 a local agency adopted an ordinance in compliance with this section
26 between January 1, 2017, and January 1, 2020.

27 (i) The department may review, adopt, amend, or repeal
28 guidelines to implement uniform standards or criteria that
29 supplement or clarify the terms, references, and standards set forth
30 in this section. The guidelines adopted pursuant to this subdivision
31 are not subject to Chapter 3.5 (commencing with Section 11340)
32 of Part 1 of Division 3 of Title 2.

33 (j) As used in this section, the following terms mean:

34 (1) “Accessory dwelling unit” means an attached or a detached
35 residential dwelling unit that provides complete independent living
36 facilities for one or more persons and is located on a lot with a
37 proposed or existing primary residence. It shall include permanent
38 provisions for living, sleeping, eating, cooking, and sanitation on
39 the same parcel as the single-family or multifamily dwelling is or

1 will be situated. An accessory dwelling unit also includes the
2 following:

3 (A) An efficiency unit.

4 (B) A manufactured home, as defined in Section 18007 of the
5 Health and Safety Code.

6 (2) “Accessory structure” means a structure that is accessory
7 and incidental to a dwelling located on the same lot.

8 (3) “Efficiency unit” has the same meaning as defined in Section
9 17958.1 of the Health and Safety Code.

10 (4) “Living area” means the interior habitable area of a dwelling
11 unit, including basements and attics, but does not include a garage
12 or any accessory structure.

13 (5) “Local agency” means a city, county, or city and county,
14 whether general law or chartered.

15 (6) “Nonconforming zoning condition” means a physical
16 improvement on a property that does not conform with current
17 zoning standards.

18 (7) “Passageway” means a pathway that is unobstructed clear
19 to the sky and extends from a street to one entrance of the accessory
20 dwelling unit.

21 (8) “Proposed dwelling” means a dwelling that is the subject of
22 a permit application and that meets the requirements for permitting.

23 (9) “Public transit” means a location, including, but not limited
24 to, a bus stop or train station, where the public may access buses,
25 trains, subways, and other forms of transportation that charge set
26 fares, run on fixed routes, and are available to the public.

27 (10) “Tandem parking” means that two or more automobiles
28 are parked on a driveway or in any other location on a lot, lined
29 up behind one another.

30 (k) A local agency shall not issue a certificate of occupancy for
31 an accessory dwelling unit before the local agency issues a
32 certificate of occupancy for the primary dwelling.

33 (l) Nothing in this section shall be construed to supersede or in
34 any way alter or lessen the effect or application of the California
35 Coastal Act of 1976 (Division 20 (commencing with Section
36 30000) of the Public Resources Code), except that the local
37 government shall not be required to hold public hearings for coastal
38 development permit applications for accessory dwelling units.

39 (m) A local agency may count an accessory dwelling unit for
40 purposes of identifying adequate sites for housing, as specified in

1 subdivision (a) of Section 65583.1, subject to authorization by the
2 department and compliance with this division.

3 (n) In enforcing building standards pursuant to Article 1
4 (commencing with Section 17960) of Chapter 5 of Part 1.5 of
5 Division 13 of the Health and Safety Code for an accessory
6 dwelling unit described in paragraph (1) or (2) below, a local
7 agency, upon request of an owner of an accessory dwelling unit
8 for a delay in enforcement, shall delay enforcement of a building
9 standard, subject to compliance with Section 17980.12 of the
10 Health and Safety Code:

11 (1) The accessory dwelling unit was built before January 1,
12 2020.

13 (2) The accessory dwelling unit was built on or after January
14 1, 2020, in a local jurisdiction that, at the time the accessory
15 dwelling unit was built, had a noncompliant accessory dwelling
16 unit ordinance, but the ordinance is compliant at the time the
17 request is made.

18 (o) This section shall remain in effect only until January 1, 2025,
19 and as of that date is repealed.

20 SEC. 2. Section 65852.2 of the Government Code, as amended
21 by Section 4.5 of Chapter 198 of the Statutes of 2020, is amended
22 to read:

23 65852.2. (a) (1) A local agency may, by ordinance, provide
24 for the creation of accessory dwelling units in areas zoned to allow
25 single-family or multifamily dwelling residential use. The
26 ordinance shall do all of the following:

27 (A) Designate areas within the jurisdiction of the local agency
28 where accessory dwelling units may be permitted. The designation
29 of areas may be based on the adequacy of water and sewer services
30 and the impact of accessory dwelling units on traffic flow and
31 public safety. A local agency that does not provide water or sewer
32 services shall consult with the local water or sewer service provider
33 regarding the adequacy of water and sewer services before
34 designating an area where accessory dwelling units may be
35 permitted.

36 (B) (i) Impose standards on accessory dwelling units that
37 include, but are not limited to, parking, height, setback, landscape,
38 architectural review, maximum size of a unit, and standards that
39 prevent adverse impacts on any real property that is listed in the

1 California Register of Historic Resources. These standards shall
2 not include requirements on minimum lot size.

3 (ii) Notwithstanding clause (i), a local agency may reduce or
4 eliminate parking requirements for any accessory dwelling unit
5 located within its jurisdiction.

6 (C) Provide that accessory dwelling units do not exceed the
7 allowable density for the lot upon which the accessory dwelling
8 unit is located, and that accessory dwelling units are a residential
9 use that is consistent with the existing general plan and zoning
10 designation for the lot.

11 (D) Require the accessory dwelling units to comply with all of
12 the following:

13 (i) The accessory dwelling unit may be rented separate from
14 the primary residence, but may not be sold or otherwise conveyed
15 separate from the primary residence.

16 (ii) The lot is zoned to allow single-family or multifamily
17 dwelling residential use and includes a proposed or existing
18 dwelling.

19 (iii) The accessory dwelling unit is either attached to, or located
20 within, the proposed or existing primary dwelling, including
21 attached garages, storage areas or similar uses, or an accessory
22 structure or detached from the proposed or existing primary
23 dwelling and located on the same lot as the proposed or existing
24 primary dwelling.

25 (iv) If there is an existing primary dwelling, the total floor area
26 of an attached accessory dwelling unit shall not exceed 50 percent
27 of the existing primary dwelling.

28 (v) The total floor area for a detached accessory dwelling unit
29 shall not exceed 1,200 square feet.

30 (vi) No passageway shall be required in conjunction with the
31 construction of an accessory dwelling unit.

32 (vii) No setback shall be required for an existing living area or
33 accessory structure or a structure constructed in the same location
34 and to the same dimensions as an existing structure that is
35 converted to an accessory dwelling unit or to a portion of an
36 accessory dwelling unit, ~~and a setback of no more than four feet~~
37 ~~from the side and rear lot lines shall be required for an accessory~~
38 ~~dwelling unit that is not converted from an existing structure or a~~
39 ~~new structure constructed in the same location and to the same~~
40 ~~dimensions as an existing structure. unit.~~

1 (viii) (I) Rear and side yard setback requirements for accessory
2 dwelling units shall be established by the local agency, except as
3 otherwise provided in clause (vii) and this clause.

4 (II) An applicant for an accessory dwelling unit may submit a
5 request to the local agency for an alternative rear and side yard
6 setback requirement based upon specific site topographical
7 conditions if the local agency's setback requirements make the
8 building of the accessory dwelling unit infeasible. The local agency
9 may approve the request upon making a finding that the alternative
10 setback is necessary to make the building of the accessory dwelling
11 unit feasible and the alternative setback requirement adjusts the
12 setback requirement only to the extent necessary to accommodate
13 the accessory dwelling unit.

14 (III) In no event shall the local agency's rear and side yard
15 setback requirements be greater than those in effect as of January
16 1, 2020.

17 (IV) If the local agency did not have an accessory dwelling unit
18 ordinance as of January 1, 2020, the rear and side yard setback
19 requirement shall be four feet.

20 ~~(viii)~~

21 (ix) Local building code requirements that apply to detached
22 dwellings, as appropriate.

23 ~~(ix)~~

24 (x) Approval by the local health officer where a private sewage
25 disposal system is being used, if required.

26 ~~(x)~~

27 (xi) (I) Parking requirements for accessory dwelling units shall
28 not exceed one parking space per accessory dwelling unit or per
29 bedroom, whichever is less. These spaces may be provided as
30 tandem parking on a driveway.

31 (II) Offstreet parking shall be permitted in setback areas in
32 locations determined by the local agency or through tandem
33 parking, unless specific findings are made that parking in setback
34 areas or tandem parking is not feasible based upon specific site or
35 regional topographical or fire and life safety conditions.

36 (III) This clause shall not apply to an accessory dwelling unit
37 that is described in subdivision (d).

38 ~~(xi)~~

39 (xii) When a garage, carport, or covered parking structure is
40 demolished in conjunction with the construction of an accessory

1 dwelling unit or converted to an accessory dwelling unit, the local
2 agency shall not require that those offstreet parking spaces be
3 replaced.

4 ~~(xii)~~

5 (xiii) Accessory dwelling units shall not be required to provide
6 fire sprinklers if they are not required for the primary residence.

7 (2) The ordinance shall not be considered in the application of
8 any local ordinance, policy, or program to limit residential growth.

9 (3) A permit application for an accessory dwelling unit or a
10 junior accessory dwelling unit shall be considered and approved
11 ministerially without discretionary review or a hearing,
12 notwithstanding Section 65901 or 65906 or any local ordinance
13 regulating the issuance of variances or special use permits. The
14 permitting agency shall act on the application to create an accessory
15 dwelling unit or a junior accessory dwelling unit within 60 days
16 from the date the local agency receives a completed application if
17 there is an existing single-family or multifamily dwelling on the
18 lot. If the permit application to create an accessory dwelling unit
19 or a junior accessory dwelling unit is submitted with a permit
20 application to create a new single-family dwelling on the lot, the
21 permitting agency may delay acting on the permit application for
22 the accessory dwelling unit or the junior accessory dwelling unit
23 until the permitting agency acts on the permit application to create
24 the new single-family dwelling, but the application to create the
25 accessory dwelling unit or junior accessory dwelling unit shall be
26 considered without discretionary review or hearing. If the applicant
27 requests a delay, the 60-day time period shall be tolled for the
28 period of the delay. If the local agency has not acted upon the
29 completed application within 60 days, the application shall be
30 deemed approved. A local agency may charge a fee to reimburse
31 it for costs incurred to implement this paragraph, including the
32 costs of adopting or amending any ordinance that provides for the
33 creation of an accessory dwelling unit.

34 (4) An existing ordinance governing the creation of an accessory
35 dwelling unit by a local agency or an accessory dwelling ordinance
36 adopted by a local agency shall provide an approval process that
37 includes only ministerial provisions for the approval of accessory
38 dwelling units and shall not include any discretionary processes,
39 provisions, or requirements for those units, except as otherwise
40 provided in this subdivision. If a local agency has an existing

1 accessory dwelling unit ordinance that fails to meet the
2 requirements of this subdivision, that ordinance shall be null and
3 void and that agency shall thereafter apply the standards established
4 in this subdivision for the approval of accessory dwelling units,
5 unless and until the agency adopts an ordinance that complies with
6 this section.

7 (5) No other local ordinance, policy, or regulation shall be the
8 basis for the delay or denial of a building permit or a use permit
9 under this subdivision.

10 (6) (A) This subdivision establishes the maximum standards
11 that local agencies shall use to evaluate a proposed accessory
12 dwelling unit on a lot that includes a proposed or existing
13 single-family dwelling. No additional standards, other than those
14 provided in this subdivision, shall be used or imposed except that,
15 subject to subparagraph (B), a local agency may require an
16 applicant for a permit issued pursuant to this subdivision to be an
17 owner-occupant or that the property be used for rentals of terms
18 longer than 30 days.

19 (B) Notwithstanding subparagraph (A), a local agency shall not
20 impose an owner-occupant requirement on an accessory dwelling
21 unit permitted between January 1, 2020, to January 1, 2025, during
22 which time the local agency was prohibited from imposing an
23 owner-occupant requirement.

24 (7) A local agency may amend its zoning ordinance or general
25 plan to incorporate the policies, procedures, or other provisions
26 applicable to the creation of an accessory dwelling unit if these
27 provisions are consistent with the limitations of this subdivision.

28 (8) An accessory dwelling unit that conforms to this subdivision
29 shall be deemed to be an accessory use or an accessory building
30 and shall not be considered to exceed the allowable density for the
31 lot upon which it is located, and shall be deemed to be a residential
32 use that is consistent with the existing general plan and zoning
33 designations for the lot. The accessory dwelling unit shall not be
34 considered in the application of any local ordinance, policy, or
35 program to limit residential growth.

36 (b) When a local agency that has not adopted an ordinance
37 governing accessory dwelling units in accordance with subdivision
38 (a) receives an application for a permit to create an accessory
39 dwelling unit pursuant to this subdivision, the local agency shall
40 approve or disapprove the application ministerially without

1 discretionary review pursuant to subdivision (a). The permitting
2 agency shall act on the application to create an accessory dwelling
3 unit or a junior accessory dwelling unit within 60 days from the
4 date the local agency receives a completed application if there is
5 an existing single-family or multifamily dwelling on the lot. If the
6 permit application to create an accessory dwelling unit or a junior
7 accessory dwelling unit is submitted with a permit application to
8 create a new single-family dwelling on the lot, the permitting
9 agency may delay acting on the permit application for the accessory
10 dwelling unit or the junior accessory dwelling unit until the
11 permitting agency acts on the permit application to create the new
12 single-family dwelling, but the application to create the accessory
13 dwelling unit or junior accessory dwelling unit shall still be
14 considered ministerially without discretionary review or a hearing.
15 If the applicant requests a delay, the 60-day time period shall be
16 tolled for the period of the delay. If the local agency has not acted
17 upon the completed application within 60 days, the application
18 shall be deemed approved.

19 (c) (1) Subject to paragraph (2), a local agency may establish
20 minimum and maximum unit size requirements for both attached
21 and detached accessory dwelling units.

22 (2) Notwithstanding paragraph (1), a local agency shall not
23 establish by ordinance any of the following:

24 (A) A minimum square footage requirement for either an
25 attached or detached accessory dwelling unit that prohibits an
26 efficiency unit.

27 (B) A maximum square footage requirement for either an
28 attached or detached accessory dwelling unit that is less than either
29 of the following:

30 (i) 850 square feet.

31 (ii) 1,000 square feet for an accessory dwelling unit that provides
32 more than one bedroom.

33 (C) Any other minimum or maximum size for an accessory
34 dwelling unit, size based upon a percentage of the proposed or
35 existing primary dwelling, or limits on lot coverage, floor area
36 ratio, open space, and minimum lot size, for either attached or
37 detached dwellings that does not permit at least an 800 square foot
38 accessory dwelling unit that is at least 16 feet in height ~~with~~
39 ~~four-foot side and rear yard setbacks~~ to be constructed in
40 compliance with all other local development standards.

1 (d) Notwithstanding any other law, a local agency, whether or
2 not it has adopted an ordinance governing accessory dwelling units
3 in accordance with subdivision (a), shall not impose parking
4 standards for an accessory dwelling unit in any of the following
5 instances:

6 (1) The accessory dwelling unit is located within one-half mile
7 walking distance of public transit.

8 (2) The accessory dwelling unit is located within an
9 architecturally and historically significant historic district.

10 (3) The accessory dwelling unit is part of the proposed or
11 existing primary residence or an accessory structure.

12 (4) When on-street parking permits are required but not offered
13 to the occupant of the accessory dwelling unit.

14 (5) When there is a car share vehicle located within one block
15 of the accessory dwelling unit.

16 (e) (1) Notwithstanding subdivisions (a) to (d), inclusive, a
17 local agency shall ministerially approve an application for a
18 building permit within a residential or mixed-use zone to create
19 any of the following:

20 (A) One accessory dwelling unit and one junior accessory
21 dwelling unit per lot with a proposed or existing single-family
22 dwelling if all of the following apply:

23 (i) The accessory dwelling unit or junior accessory dwelling
24 unit is within the proposed space of a single-family dwelling or
25 existing space of a single-family dwelling or accessory structure
26 and may include an expansion of not more than 150 square feet
27 beyond the same physical dimensions as the existing accessory
28 structure. An expansion beyond the physical dimensions of the
29 existing accessory structure shall be limited to accommodating
30 ingress and egress.

31 (ii) The space has exterior access from the proposed or existing
32 single-family dwelling.

33 (iii) The side and rear setbacks are sufficient for fire and safety.

34 (iv) The junior accessory dwelling unit complies with the
35 requirements of Section 65852.22.

36 (B) One detached, new construction, accessory dwelling unit
37 ~~that does not exceed four-foot side and rear yard setbacks~~ for a lot
38 with a proposed or existing single-family dwelling. The accessory
39 dwelling unit may be combined with a junior accessory dwelling

- 1 unit described in subparagraph (A). A local agency may impose
2 the following conditions on the accessory dwelling unit:
- 3 (i) A total floor area limitation of not more than 800 square feet.
4 (ii) A height limitation of 16 feet.
- 5 (C) (i) Multiple accessory dwelling units within the portions
6 of existing multifamily dwelling structures that are not used as
7 livable space, including, but not limited to, storage rooms, boiler
8 rooms, passageways, attics, basements, or garages, if each unit
9 complies with state building standards for dwellings.
- 10 (ii) A local agency shall allow at least one accessory dwelling
11 unit within an existing multifamily dwelling and shall allow up to
12 25 percent of the existing multifamily dwelling units.
- 13 (D) Not more than two accessory dwelling units that are located
14 on a lot that has an existing multifamily dwelling, but are detached
15 from that multifamily dwelling and are subject to a height limit of
16 16 feet and ~~four-foot rear yard and side setbacks.~~ *feet.*
- 17 (2) A local agency shall not require, as a condition for ministerial
18 approval of a permit application for the creation of an accessory
19 dwelling unit or a junior accessory dwelling unit, the correction
20 of nonconforming zoning conditions.
- 21 (3) The installation of fire sprinklers shall not be required in an
22 accessory dwelling unit if sprinklers are not required for the
23 primary residence.
- 24 (4) A local agency may require owner occupancy for either the
25 primary dwelling or the accessory dwelling unit on a single-family
26 lot, subject to the requirements of paragraph (6) of subdivision (a).
- 27 (5) A local agency shall require that a rental of the accessory
28 dwelling unit created pursuant to this subdivision be for a term
29 longer than 30 days.
- 30 (6) A local agency may require, as part of the application for a
31 permit to create an accessory dwelling unit connected to an onsite
32 wastewater treatment system, a percolation test completed within
33 the last five years, or, if the percolation test has been recertified,
34 within the last 10 years.
- 35 (7) Notwithstanding subdivision (c) and paragraph (1) a local
36 agency that has adopted an ordinance by July 1, 2018, providing
37 for the approval of accessory dwelling units in multifamily
38 dwelling structures shall ministerially consider a permit application
39 to construct an accessory dwelling unit that is described in
40 paragraph (1), and may impose standards including, but not limited

1 to, design, development, and historic standards on said accessory
2 dwelling units. These standards shall not include requirements on
3 minimum lot size.

4 (f) (1) Fees charged for the construction of accessory dwelling
5 units shall be determined in accordance with Chapter 5
6 (commencing with Section 66000) and Chapter 7 (commencing
7 with Section 66012).

8 (2) An accessory dwelling unit shall not be considered by a
9 local agency, special district, or water corporation to be a new
10 residential use for purposes of calculating connection fees or
11 capacity charges for utilities, including water and sewer service,
12 unless the accessory dwelling unit was constructed with a new
13 single-family dwelling.

14 (3) (A) A local agency, special district, or water corporation
15 shall not impose any impact fee upon the development of an
16 accessory dwelling unit less than 750 square feet. Any impact fees
17 charged for an accessory dwelling unit of 750 square feet or more
18 shall be charged proportionately in relation to the square footage
19 of the primary dwelling unit.

20 (B) For purposes of this paragraph, “impact fee” has the same
21 meaning as the term “fee” is defined in subdivision (b) of Section
22 66000, except that it also includes fees specified in Section 66477.
23 “Impact fee” does not include any connection fee or capacity
24 charge charged by a local agency, special district, or water
25 corporation.

26 (4) For an accessory dwelling unit described in subparagraph
27 (A) of paragraph (1) of subdivision (e), a local agency, special
28 district, or water corporation shall not require the applicant to
29 install a new or separate utility connection directly between the
30 accessory dwelling unit and the utility or impose a related
31 connection fee or capacity charge, unless the accessory dwelling
32 unit was constructed with a new single-family dwelling.

33 (5) For an accessory dwelling unit that is not described in
34 subparagraph (A) of paragraph (1) of subdivision (e), a local
35 agency, special district, or water corporation may require a new
36 or separate utility connection directly between the accessory
37 dwelling unit and the utility. Consistent with Section 66013, the
38 connection may be subject to a connection fee or capacity charge
39 that shall be proportionate to the burden of the proposed accessory
40 dwelling unit, based upon either its square feet or the number of

1 its drainage fixture unit (DFU) values, as defined in the Uniform
2 Plumbing Code adopted and published by the International
3 Association of Plumbing and Mechanical Officials, upon the water
4 or sewer system. This fee or charge shall not exceed the reasonable
5 cost of providing this service.

6 (g) This section does not limit the authority of local agencies
7 to adopt less restrictive requirements for the creation of an
8 accessory dwelling unit.

9 (h) (1) A local agency shall submit a copy of the ordinance
10 adopted pursuant to subdivision (a) to the Department of Housing
11 and Community Development within 60 days after adoption. After
12 adoption of an ordinance, the department may submit written
13 findings to the local agency as to whether the ordinance complies
14 with this section.

15 (2) (A) If the department finds that the local agency’s ordinance
16 does not comply with this section, the department shall notify the
17 local agency and shall provide the local agency with a reasonable
18 time, no longer than 30 days, to respond to the findings before
19 taking any other action authorized by this section.

20 (B) The local agency shall consider the findings made by the
21 department pursuant to subparagraph (A) and shall do one of the
22 following:

- 23 (i) Amend the ordinance to comply with this section.
- 24 (ii) Adopt the ordinance without changes. The local agency
25 shall include findings in its resolution adopting the ordinance that
26 explain the reasons the local agency believes that the ordinance
27 complies with this section despite the findings of the department.

28 (3) (A) If the local agency does not amend its ordinance in
29 response to the department’s findings or does not adopt a resolution
30 with findings explaining the reason the ordinance complies with
31 this section and addressing the department’s findings, the
32 department shall notify the local agency and may notify the
33 Attorney General that the local agency is in violation of state law.

34 (B) Before notifying the Attorney General that the local agency
35 is in violation of state law, the department may consider whether
36 a local agency adopted an ordinance in compliance with this section
37 between January 1, 2017, and January 1, 2020.

38 (i) The department may review, adopt, amend, or repeal
39 guidelines to implement uniform standards or criteria that
40 supplement or clarify the terms, references, and standards set forth

1 in this section. The guidelines adopted pursuant to this subdivision
2 are not subject to Chapter 3.5 (commencing with Section 11340)
3 of Part 1 of Division 3 of Title 2.

4 (j) As used in this section, the following terms mean:

5 (1) “Accessory dwelling unit” means an attached or a detached
6 residential dwelling unit that provides complete independent living
7 facilities for one or more persons and is located on a lot with a
8 proposed or existing primary residence. It shall include permanent
9 provisions for living, sleeping, eating, cooking, and sanitation on
10 the same parcel as the single-family or multifamily dwelling is or
11 will be situated. An accessory dwelling unit also includes the
12 following:

13 (A) An efficiency unit.

14 (B) A manufactured home, as defined in Section 18007 of the
15 Health and Safety Code.

16 (2) “Accessory structure” means a structure that is accessory
17 and incidental to a dwelling located on the same lot.

18 (3) “Efficiency unit” has the same meaning as defined in Section
19 17958.1 of the Health and Safety Code.

20 (4) “Living area” means the interior habitable area of a dwelling
21 unit, including basements and attics, but does not include a garage
22 or any accessory structure.

23 (5) “Local agency” means a city, county, or city and county,
24 whether general law or chartered.

25 (6) “Nonconforming zoning condition” means a physical
26 improvement on a property that does not conform with current
27 zoning standards.

28 (7) “Passageway” means a pathway that is unobstructed clear
29 to the sky and extends from a street to one entrance of the accessory
30 dwelling unit.

31 (8) “Proposed dwelling” means a dwelling that is the subject of
32 a permit application and that meets the requirements for permitting.

33 (9) “Public transit” means a location, including, but not limited
34 to, a bus stop or train station, where the public may access buses,
35 trains, subways, and other forms of transportation that charge set
36 fares, run on fixed routes, and are available to the public.

37 (10) “Tandem parking” means that two or more automobiles
38 are parked on a driveway or in any other location on a lot, lined
39 up behind one another.

1 (k) A local agency shall not issue a certificate of occupancy for
2 an accessory dwelling unit before the local agency issues a
3 certificate of occupancy for the primary dwelling.

4 (l) Nothing in this section shall be construed to supersede or in
5 any way alter or lessen the effect or application of the California
6 Coastal Act of 1976 (Division 20 (commencing with Section
7 30000) of the Public Resources Code), except that the local
8 government shall not be required to hold public hearings for coastal
9 development permit applications for accessory dwelling units.

10 (m) A local agency may count an accessory dwelling unit for
11 purposes of identifying adequate sites for housing, as specified in
12 subdivision (a) of Section 65583.1, subject to authorization by the
13 department and compliance with this division.

14 (n) In enforcing building standards pursuant to Article 1
15 (commencing with Section 17960) of Chapter 5 of Part 1.5 of
16 Division 13 of the Health and Safety Code for an accessory
17 dwelling unit described in paragraph (1) or (2) below, a local
18 agency, upon request of an owner of an accessory dwelling unit
19 for a delay in enforcement, shall delay enforcement of a building
20 standard, subject to compliance with Section 17980.12 of the
21 Health and Safety Code:

22 (1) The accessory dwelling unit was built before January 1,
23 2020.

24 (2) The accessory dwelling unit was built on or after January
25 1, 2020, in a local jurisdiction that, at the time the accessory
26 dwelling unit was built, had a noncompliant accessory dwelling
27 unit ordinance, but the ordinance is compliant at the time the
28 request is made.

29 (o) This section shall become operative on January 1, 2025.

30 SEC. 3. No reimbursement is required by this act pursuant to
31 Section 6 of Article XIII B of the California Constitution because
32 a local agency or school district has the authority to levy service
33 charges, fees, or assessments sufficient to pay for the program or
34 level of service mandated by this act, within the meaning of Section
35 17556 of the Government Code.

O

SB 55 (STERN) FIRE-SAFE GROWTH

Updated: 4/12/2021

THE PROBLEM

California is in the midst of intersecting economic, housing, and climate crises. As the state works to increase the supply of housing and reduce its climate risks, California's growth strategy must recognize the intersection of development and climate in the key area of fire risk.

SB 55 will put California on the path toward fire-safe growth by prohibiting new residential development in very high fire hazard severity zones (VHFHSZ) unless certain fire resiliency standards can be met. SB 55 also provides a fire-offset density bonus for residential development in low fire-risk areas.

BACKGROUND

Millions of Californians are living in serious fire danger. A McClatchy analysis conducted using CalFire's fire severity maps found about 2.7 million Californians live in VHFHSZs. The climate emergency puts those in fire-prone areas at increased risk as fires will continue to become more frequent and severe.

Making homes more resistant to fires by hardening them in these dangerous areas is important – the McClatchy analysis also found houses built under more protective building codes suffered less damage. Resiliency efforts, from reducing fuel in yards to installing double-paned windows to closing eaves, can save lives and property. For the millions of families who live under the shadow of fire risk today, home hardening is urgent and necessary. However, in certain instances hardening is not enough.

Fire **resistance** does not mean fire **immunity** – and, as researchers have been reiterating for years, “*Where* you build your house, not what it's made of, is the biggest factor in determining

whether it will burn.” The 2018, 2019, and 2020 wildfire seasons took a toll not only on older homes but also on homes built to the most recent building standards. To protect those homes, the state has spent nearly \$10 billion.

As of December, the 2020 wildfire season was even more severe, with CalFire estimating 4,197,628 acres burned in the year compared to a previous 5-year annual average of 878,800 acres. Additionally, an estimated 10,500 structures were damaged or destroyed and 31 lives were lost. To be sensible, California's growth strategy cannot ignore the most important factor in determining fire risk – where houses are built.

THE SOLUTION

SB 55 sets California on a path of fire-safe growth by both prohibiting further residential development in VHFHSZs unless stringent building, hardening, and emergency response mitigation plans are met.

SB 55 is not intended to operate in a vacuum. It will also provide a height bonus of 10 feet and a 20% density bonus for residential developments built outside of the moderate, high, and very high fire hazard severity zones. By incentivizing development outside of the wildland urban interface (WUI), it will encourage transit-oriented, affordable, green and infill housing. Efforts that will not only reduce exorbitant housing costs – they will also help California achieve its climate goals.

This bill will ensure new housing development projects will not inadvertently put more Californians in harm's way.

SB 765 (STERN) ADU SETBACK

UPDATED: 3/3/21

BACKGROUND

As California works to address the housing crisis, accessory dwelling units (ADUs) have been identified as one way to increase the production of affordable housing. In recent years, the state has incentivized and clarified law to increase the production of ADUs.

An ADU, often referred to as a granny flat or guest home, is a housing unit that may be built on a single-family or multifamily-zoned lot.

Part of the new law includes new rear and side setbacks that apply to every lot in the state, no matter the size. A setback is a development standard intended to serve as the minimum distance the unit must be setback from the end and/or side of the lot. In this case, a side and rear set-back refer to the side and rear of a property line.

THE PROBLEM

Under existing law, ADUs only have to be 4ft feet away from the side and rear property lines. (Gov. Code, § 65852.2) no matter what size the parcel, meaning the setback are currently the same whether a small 3,000 square foot urban lot or a 20 acre lot in rural lots.

As a result, many ADUs can be placed significantly closer to a neighbor's home on an adjacent property than it is to the home on the property where it's located, butting up against a fence line and/or not optimally located in consideration of scale and proper planning.

Prior to this law being enacted in 2021, local governments established their own setbacks, depending on location, environs, often varying from community to community or street to street depending on what was appropriate.

For suburban and rural plots and other jurisdictions with larger lots of land and open space, setbacks were often 25 feet.

THE SOLUTION

SB 765 gives local governments the option to return to any setback regulations they had established prior to the state law mandating the 4-foot setback that took effect in 2021. For local jurisdictions that did not have a setback regulation in place, they will be bound by the 4-foot setback rule in current state law.

By making this change, local jurisdictions will restore their authority to do proper planning to achieve an optimal, safe, and aesthetically balanced ADU location. Under SB 765, if a local jurisdiction's setback requirements make the building of an ADU infeasible, the applicant can submit a request for an alternate setback requirement.

RE: Senate Bill (SB) 55 – Development Prohibition in Very High Fire Hazard Severity Zone and State Responsibility Area (Stern/Allen) – SUPPORT

Dear Senators Wiener and McGuire:

At its Regular meeting on April 12, 2021, the Malibu City Council voted to support SB 55, which would restrict development in areas of California most threatened by the possibility of wildfires.

Following the historically destructive fire seasons of 2018-2020, the State recognized it must develop a growth strategy that recognizes the joint effects of economic, housing, and climate crises while addressing the key area of fire risk. Existing law requires the Director of Forestry and Fire Protection to identify areas of the state as very high fire hazard severity zones (VHFHSZ) based on specified criteria. All of Malibu has been identified as being within a VHFHSZ, and a recent study found that approximately 2.7 million Californians live in a VHFHSZ. Resiliency efforts, such as home hardening and defensible space requirements, are critical defenses but may not be enough to protect communities within a VHFHSZ. SB 55 looks to address that shortfall by prohibiting new residential, commercial and industrial development in a VHFHSZ.

The City is also aware of proposed amendments to SB 55 that would:

- Provide a general exemption to the development prohibition of a local jurisdiction that meets stringent fire safety standards
- Clarify the definition of a “new development” to explicitly allow for rebuilds and any 1:1 construction for existing dwelling units
- Allow any essential infrastructure maintenance
- Allow for construction of a new facility or infrastructure if it is intended for fire prevention or response

SB 55 – SUPPORT

April 13, 2021

Page 2 of 2

The City of Malibu fully supports any amendment to SB 55 that would allow for property owners in Malibu and other communities devastated by recent wildfires to rebuild their homes and their lives.

For these reasons, the City of Malibu strongly supports SB 55 and respectfully requests that the Senate Housing Committee and Governance and Finance Committee vote in support of SB 55.

Sincerely,

Mikke Pierson

Mayor

RE: Senate Bill (SB) 765 – Accessory Dwelling Unit Setback (Stern) – SUPPORT

Dear Senators Wiener and McGuire:

At its Regular meeting on April 12, 2021, the Malibu City Council voted to support SB 765, which continues to provide for and protect the production of accessory dwelling units (ADUs), while allowing cities to maintain a setback for ADUs that is appropriate to their lot size and terrain.

First and foremost, SB 765 will neither undermine existing law nor hinder the construction of ADUs, which the City of Malibu supports as one of many very important solutions to the current housing crisis. Rather, SB 765 provides that rear and side yard setbacks for ADUs previously established by local agencies be maintained in appropriate circumstances, so that each community can take into account its own built environment, unique topography and landscape, and the differences of lot size among urban, suburban, and rural zones and terrain.

In fact, to ensure that the bill does not diminish opportunities for ADU construction, SB 765 has built-in safeguards to ensure that the goals of housing production are maintained. Nothing else will change regarding the ministerial approval of ADUs.

SB 765 is necessary because, without this fix, ADUs that may otherwise be considered, may not be built. The standardized setback of four (4) feet, however well-intended, has unintended consequences in that an ADU would have to be placed in a location that is not optimal in terms of scale and proper planning. The statewide standardization does not take into consideration the wide variation in parcel sizes that can range anywhere from a small, 5,000-square foot parcel to a parcel of 20 acres or more in a rural zone. In each case, an ADU would be required to be situated against a fence line and significantly closer to a neighbor's home on an adjacent property than to the home on the property where it is located.

SB 765 – SUPPORT

April 13, 2021

Page 2 of 2

SB 765 honors one of the great strengths of California – the diversity of communities – and respects a community’s varying parcels and terrain. When one considers the variation of parcels in the state, it is unreasonable that every lot in California must have the same setback in order to facilitate the production of ADUs.

For these reasons, the City of Malibu strongly supports SB 765 and respectfully requests that the Senate Housing Committee and Governance and Finance Committee vote in support of SB 765. Approval of this legislation acknowledges consideration of the value in proper planning and site specifics, as well as the importance of balance in housing legislation.

Sincerely,

Mikke Pierson
Mayor

Honorable Members of the Senate Governance and Finance Committee

MOTION BY SUPERVISOR JANICE HAHN

March 9, 2021

5-Signature Letter to Support AFSCME 1902 Workers

An LA Times investigation last month revealed a workplace culture at the Metropolitan Water District (MWD) of Southern California plagued with rampant sexual harassment, bullying, discrimination, and retaliation, particularly for women and LGBTQIA+ people. These essential workers build and manage the water infrastructure the County relies on, often in remote locations away from their families.

The review initiated by the MWD Board is a good first step to investigate the claims of sexual harassment, but a full, comprehensive investigation into all alleged incidents of abuse at the MWD is necessary to not only achieve justice for those abused, but to change the culture and ensure incidents of misconduct are taken seriously.

All allegations of sexual harassment filed by female and LGBTQIA+ employees of the Metropolitan Water District of Southern California should be fully investigated, through a neutral, independent third-party investigative process, which should not be impeded by arbitrary timelines or restrictive funding.

MOTION

MITCHELL _____

KUEHL _____

HAHN _____

BARGER _____

SOLIS _____

In order to create the institutional change necessary to ensure the MWD's workplace is free from harassment, discrimination, bullying and retaliation, the State needs to conduct a comprehensive investigation into the alleged abuses, and the related human resources practices.

I, THEREFORE MOVE that the Board of Supervisors direct the Chief Executive Officer to send a five-signature letter to Assemblymember Rudy Salas Jr., Chair, and Senator John Laird, Vice Chair, of the California State Assembly Joint Legislative Audit Committee, with a copy to the Committee members to request a State Audit in order to have a comprehensive investigation into the allegations and concerns regarding the workplace culture surrounding the women and LGBTQIA+ employees who work in Metropolitan Water District of Southern California.

#

JH: nh

WHEREAS, any official position of the City of Los Angeles with respect to legislation, rules, regulations or policies proposed to or pending before a local, state, or federal government body or agency must have first been adopted in the form of a Resolution by the City Council with the concurrence of the Mayor; and

WHEREAS, Metropolitan Water District (MWD) is a public corporation created for the purpose of developing, storing, and distributing water throughout the Southern California region; and

WHEREAS, the MWD consists of 26 member agencies and provides drinking water to nearly 18 million people in its service area; and

WHEREAS, recent disturbing reports state that a number of current and former MWD employees have come forward exposing a pattern of sexual harassment, bullying and retaliation of women who participated in an apprentice program at the MWD; and

WHEREAS, the women who participated in the apprentice program stated that their complaints of harassment were ignored by MWD officials and some women were pressured to continue working around their abusers; one woman was transferred to work at a facility more than 100 miles from her home and family; and

WHEREAS, on October 27, 2020 an independent investigation was initiated by the MWD to review this matter, but there is concern that the investigation will be rushed and inadequate in addressing the problem; and

WHEREAS, in order to create the institutional change necessary to ensure the MWD's workplace is free from harassment, discrimination, bullying and retaliation, the State needs to conduct a comprehensive investigation into the alleged abuses, and the related human resources practices; and

WHEREAS, by conducting these activities a measure of workplace safety and justice may be ensured for the women and LGBTQ+ community working at the MWD;

NOW, THEREFORE, BE IT RESOLVED, with the concurrence of the Mayor, that by the adoption of this Resolution, the City of Los Angeles includes in its 2021-2022 State Legislative Program, sponsorship and support of any legislative effort by the Senate and Assembly Joint Legislative Audit Committee to conduct a comprehensive investigation and audit of the personnel policies and practices of the Metropolitan Water District of Southern California (MWD) to increase transparency and provide oversight of workplace health and safety; and the prevention of workplace discrimination, harassment, bullying and retaliation in light of recent reports concerning the treatment of women at the MWD.
